WILLIAM P. RICHARDSON,
Treasurer.

AUDITOR'S REPORT

To the Citizens of the Town of Scituate:

I have examined the accounts of the Selectmen, Overseers of the Poor, Tax Collector and Treasurer for the year ending December 31, 1919.

All of the above named accounts were found to be correct and properly vouched for.

WILLIAM M. WADE,
Auditor.

REPORT OF TOWN CLERK

ANNUAL MEETING, MARCH 3, 1919

For the transaction of business at 9 o'clock in the forenoon. Meeting called to order by the Town Clerk.

ARTICLE 1 was taken up and the result of the vote for Moderator was as follows:

William J. Roberts	28
Peter W. Sharp	32
Dennis H. Shea	46

Dennis H. Shea was elected Moderator by ballot.

Tellers appointed by the Moderator: Harry M. Litchfield, Russell T. Knox and Frank H. Barry. Tellers sworn in by the Town Clerk.

Voted, That voters have a chance to speak on questions as many times as necessary on important business.

ARTICLE 2

To choose all necessary Town Officers other than those elected by ballot.

Voted, For *Surveyor of Lumber, Measurer of Wood and Bark* — Ansel F. Servan and George S. Bailey.

Two or more Field Drivers.

Voted, That the Constables serve as Field Drivers.

Two or more Fence Viewers

Voted, That the Selectmen serve as Fence Viewers.

For Pound Keeper

Voted, Charles G. Everett.

ARTICLE 3

Voted, To accept as printed the report of the Selectmen and other Town Officers.

ARTICLE 4

To raise such sums of money as may be necessary to defray the expenses for the ensuing year, and make appropriations for the same. Voted:

General Government	\$7,500 00
Employers' liability	300 00
Police	3,500 00
Fire Department	4,200 00
Hydrant rental	5,700 00

Memorial Day	150 00
Unclassified	500 00

ARTICLE 5

Voted, That the Town do authorize its Overseers of the Poor to contract at their discretion for the support of the Town's poor.

ARTICLE 6

Voted, That the Town do authorize the Town Treasurer, with the approval of the Selectmen, to borrow during the financial year beginning January 1, 1920, in anticipation of the collection of revenue of said year, such sums of money as may be necessary for the current expenses of the Town, but not exceeding the limit fixed by law, giving the note or notes of the Town therefor, payable within one year from the dates thereof, and to renew such note or notes as may be given for a less period than one year, provided the limit of one year is not exceeded thereby. All debts incurred under this authority shall be paid from the revenue of the then current year.

ARTICLE 7

To hear the report of any committee heretofore chosen. Report on the Scituate Water Company by Mr. A. F. Servan.

ARTICLE 8

Voted, That the Town do authorize the Selectmen to prosecute, compromise or defend any suit or suits within the Commonwealth in the name of the Town.

ARTICLE 9

Voted, That all taxes shall be payable by November 1 of the year when assessed, and that all taxes unpaid after said November 1 shall draw interest at six per cent from the 15th day of October until paid.

ARTICLE 10

Voted, That the Town do instruct its Selectmen to control, regulate or prohibit the taking of clams, eels, quahaugs, razor fish and scallops within the Town of Scituate in accordance with Chapter 91 Section 85 Revised Laws, as amended by Acts of 1913 Chapter 517 and further amended by Acts of 1915 Chapter 86.

ARTICLE 11

Will the Town raise and appropriate the sum of \$9,000 for the purchase and the locating of a pumping engine under the direction of the Board of Engineers and Board of Selectmen. An amendment to the original question was voted, 48 in favor, 35 against, a two-thirds vote being necessary in regard to issuing serial notes in payment for the same; the vote was of no effect.

Resolved, that we commend to the attention of the Selectmen, the heads of departments and to the Advisory Board the provisions of Statutes governing the expenditure of money in excess of appropriations and the handling of the reserve fund. Voted, Yes.

ARTICLE 12

Voted, That the Town raise and appropriate the sum of \$2,500, to be used as a reserve fund.

ARTICLE 13

Voted, That the Town raise and appropriate the sum of \$1,500 to start the work on Surfside Road at North Scituate Beach, in accordance with the decree of the County Commissioners, as accepted by the Town at the Annual Meeting March 4, 1918.

ARTICLE 14

Will the Town vote to move Hose House No. 4 from its present location on Cleveland Avenue to a lot on Bailey's Causeway near Beach Street, etc.?

Voted, No.

ARTICLE 15

Will the Town authorize the Selectmen to sell the lot now occupied by Hose 4, at Cleveland Avenue, etc.?

Voted, To indefinitely postpone.

ARTICLE 16

Voted, That the Town raise and appropriate the sum of \$300, for the collection and disposal of rubbish throughout the Town, to be expended under the direction of the Clean-up Committee.

ARTICLE 17

Voted, That the Town raise and appropriate the sum of \$49.50 to purchase from John J. Galvin et al the parcel of land adjoining Lot A Bathing Beach on the ocean front at the Sand Hills.

ARTICLE 18

Voted, That the Town raise and appropriate the sum of \$500 for street improvements at Humarock Beach.

ARTICLE 19

Voted, That the Town raise and appropriate the sum of \$1,500 to rebuild Rotten Marsh Bridge road from the Country Way to the creek, and survey said road thence to its

original termination and that the same be named Judge Cushing Road.

ARTICLE 20

Will the Town raise and appropriate the sum of \$2,000 to macadam Brook Street?

Voted, To indefinitely postpone.

ARTICLE 21

Voted, That the Town raise and appropriate the sum of \$500 to fill in the easterly end of Second Cliff Bridge.

ARTICLE 22

Voted, That the Town raise the wages of the Town laborers to 45 cents per hour and pay for double team and driver \$1.00 per hour, and for single team and driver 72 cents per hour.

ARTICLE 23

Will the Town turn over to the Park Department for their supervision the open spaces on Beach Street between the road and the Sea Wall, to be beautified as a park without expense to the Town.

Voted, That the Town turn over to the Park Department the open spaces on Beach Street, to be under their supervision, but that auto parking space be reserved for the use of the Town's citizens.

ARTICLE 24

Will the Town raise and appropriate the sum of \$200 for the Fourth of July celebration at the Sand Hills, etc.?

Voted, To indefinitely postpone.

ARTICLE 25

Will the Town instruct a joint board composed of the Selectmen and Advisory Board, to draw up Town Ordinances and Town By-Laws and report at the next Town Meeting, special or regular.

Voted, To indefinitely postpone.

ARTICLE 26

To see if the Town acting through the proper officials will order and cause the prompt removal from the old Town Landing (so-called) on Front Street, near Satuit Brook, of the building known as the old boat shop now owned by private parties and used as a summer residence.

Voted, To indefinitely postpone.

ARTICLE 27

Will the Town pay a bounty on foxes and woodchucks?

Voted, Yes, same as last year, twenty-five cents each for fox or woodchuck killed within the limits of the Town.

ARTICLE 28

Voted, That the Town raise and appropriate \$60 to install two electric lights on the Second Cliff and one on the road between the First and Second Cliff.

ARTICLE 29

Voted, That the Town raise the sum of \$2,000 for the Town's reception to our returning soldiers and sailor boys, to be expended under the direction of a Committee appointed by the Selectmen, at the request of the Governor of the Commonwealth. Date selected by the Committee, July 4, 1919. Thomas W. Lawson, Chairman.

ARTICLE 30

Will the Town raise and appropriate the sum of \$5,000 for removing the old High School building to a new location and constructing the driveway as suggested by the Planning Committee.

Voted, Yes, \$5,000.

In connection with this article, under Article 7, to hear the report of any committee heretofore chosen Mr. Frederic T. Bailey proposed the following:

Voted, That the Beal plan in its essential features be and hereby is approved and adopted, and that a committee consisting of Frederic T. Bailey, Hamilton W. Welch, Dr. Harry F. Cleverly, the Chairman for the time being of the Board of Selectmen, the School Committee and Port Commission and the President for the time being of the Scituate Historical Society, be a committee to plan for the erection and completion of the civic center.

Members of the Committee: Mr. Frederic T. Bailey, Hamilton W. Welch, Dr. Harry F. Cleverly, Ansel F. Servan, Mrs. Rena M. Cole, William H. North and Silas Peirce.

Voted, That the \$5,000 previously raised is to be used to prepare a basement and foundation and remove the old High School building thereto and to build the driveways so far as the appropriation will go, all in accordance with the plan adopted by the Town and under the direction of the committee appointed. 34 in favor, 7 against.

ARTICLE 31

Voted, That the Town do return the custody of the old High School building to the School Department.

ARTICLE 32

Voted, That the Town raise and appropriate the sum of \$2,000 addition for the transportation of High School pupils.

ARTICLE 33

Voted, That the Town raise and appropriate the sum of \$1,200 for installing new furnaces in the Jenkins School.

Voted, To adjourn to March 10, 1919.

REPORT OF THE PARK COMMISSION

The street plots in the Town have been cared for as in past years, and in many instances have reflected credit on the caretakers.

About two hundred and fifty loads of material were carted on to the Soldiers' park, the surface graded and seeded, and the lawn around the monument mowed a number of times. Conditions during the building of the pool rendered further mowing impracticable.

The grounds around and adjoining the Egypt Station were placed in the care of Mr. Charles F. Andrews, and the work was done to the satisfaction of all. Crushed stone will be placed on the path on the westerly side of the park.

There was considerable delay in getting the renovation of the Scituate Light started, owing to the inability of the commission to obtain details of the original structure. Mr. William W. Damon was employed late in the season to repair the long shed connecting the house and tower, provide new windows, build the stairways and landings in the tower and in other ways make the property available for the purposes for which it was acquired by the Town.

In addition to the present appropriation which will soon be exhausted we ask an appropriation for this year of five hundred dollars, to be spent in still further restoring the property, and three hundred and fifty dollars for the general work of the commission.

Respectfully submitted,

WILLIAM H. NORTH, *Chairman*,
JOHN F. DALBY,
FRANK H. BARRY,

Park Commission.

REPORT OF TREE WARDEN

During the past year I have followed my customary policy of spending as much of my appropriation as was absolutely needed for the upkeep and planting of young trees. I have planted one hundred and sixty-seven trees: some of these I have had to reset, being either run over or backed into by automobiles. I have tried to keep all corners in the Town free from growing brush that makes it bad for accidents from automobiles.

I wish to state that the North Scituate Improvement Association has done some very good work in trying to beautify that part of the Town by planting every year around seventy-five trees. This year they have put six hundred pounds of bone meal around those that have been planted in the past years.

Mr. Thomas Lawson has also taken considerable interest in our shade trees. He has planted some handsome elms around the Common at Scituate Centre which I know must have been at a great expense.

The value of healthy trees by our roadside is one of our Town's best assets.

Every intelligent person will advocate a generous appropriation for tree warden's work, whoever he may be.

I wish to thank all who have shown interest in my work, in the past, and to hope that they will continue to show interest in the future.

Respectfully submitted,

WILLIAM F. FORD.

REPORT OF THE BOARD OF HEALTH

To the Citizens of Scituate we present our report:

With the exception of a severe epidemic of influenza during the first part of the year, we have had fewer cases of contagious diseases in Town than for many years.

The inhabitants of North Scituate Beach were delighted with the results following the draining of the marshes back of the Cliff House. The marshes are much cleaner, and the quantity of mosquitoes has been reduced very perceptibly.

There has been the usual number of complaints about cesspools and garbage which have been attended to.

The inspection of dairies has gone on as usual.

Respectfully submitted,

WILLIAM P. GROVESTEN, *Chairman*,
GEORGE T. OTIS,
JOHN W. BURKE,
Board of Health

REPORT OF INSPECTOR OF PLUMBING

Scituate, Mass., January 1, 1920.

Board of Health, Scituate, Mass.

Chairman,

Dear Sir: Owing to the increased building operations over last year more plumbing has been installed, all applications for permits to perform plumbing have been promptly granted by me, which work has been approved as meeting all requirements of our Plumbing Regulations. As Scituate has no building regulations I find that at a few of our shore resorts advantage has been taken of this condition and buildings have been erected entirely too close for the best interest of public health. During the summer these places are overinhabited so that any contagious disease breaking out there would be a very serious affair. As these sections grow it is highly essential that the very best sanitary conditions be made possible, especially as to the proper disposal of sewerage.

The problem is growing more complicated each year; therefore I am directing more attention to these thickly settled summer colonies in order that our sanitary laws be strictly enforced so as to maintain the best conditions possible for the general public health.

Respectfully yours,

ARTHUR R. MERRITT,
Inspector of Plumbing.

REPORT OF INSPECTOR OF MILK

To the Citizens of Scituate:

There were fourteen milk licenses issued for the year 1919.
I have tested samples of milk, and found them up to the
standard required by the Massachusetts Board of Health.

Respectfully submitted,

GEORGE T. OTIS,
Milk Inspector.

REPORT OF INSPECTOR OF SLAUGHTERING

To the Scituate Board of Health:

Gentlemen: During the past year I have inspected forty-nine swine, nine veal and five beeves, a total of sixty-three head of slaughtered animals and found them all fit for human consumption.

Respectfully submitted,

J. F. BRESNAHAN,
Inspector.

SEALER OF WEIGHTS AND MEASURES

North Scituate, Mass.

January 16, 1920.

To the Honorable Board of Selectmen:

As Sealer of Weights and Measures for this year I make the following report. Owing to the delay in getting new equipment for 1919 which I did not receive until August, and being sick about that time, nearly all the summer stores, which are open only a few months in the year, had closed before I could get to them.

There are still a few year-round stores which have not been taken care of yet, but will be by May 1, 1920, the expiration of my year, and will appear in next year's report.

The equipment for 1920 has arrived and there need be no delay this year.

Respectfully submitted,

RUSSELL T. KNOX.

January 16, 1920.

REPORT OF CHIEF OF POLICE

December 31, 1919.

To the Honorable Board of Selectmen:

I herewith submit the annual report of the Police Department. The department was called to make an unusual amount of investigations this year; owing to the condition of the times there have been many entries to property, but fortunately very little if any property has been taken and it has been found necessary to detail officers for a time to cover these districts affected, but the department is working steadily ahead under the greatest handicap that any Police Department is probably forced to face, caused by the districts being far removed from one another instead of being a compact town.

The question of automobile traffic is becoming a serious one; the increased use of automobiles during the past two years affords interesting speculation on the part of the Police Department as to the outcome.

The highways of nearly all Massachusetts towns are so congested with automobile traffic during the summer season as to make it almost unsafe for one to operate, especially Sundays and holidays; in fact in Scituate on Sundays and holidays, the Police Department has caused to be counted on the County Way seven hundred (700) automobiles per hour, passing a given point, or about one machine every 5.14 seconds.

Take our Humarock Beach, for instance; the parking of cars at the Beach on Sundays and holidays ran as high as 480 cars while four years ago very few cars went to the Beach.

During the year 1919, there were approximately 500,000 cars registered in New England states; Massachusetts alone

furnished about 177,000 pleasure cars and about 60,000 trucks and with the increased development of more popular priced cars, and the traffic caused by the Tercentenary celebration, it is fair to assume these figures may multiply during the next two years.

I hereby recommend an appropriation of five thousand, five hundred dollars for police work in 1920

JOHN F. TURNER,
Chief of Police.

REPORT OF FIRE DEPARTMENT

To the Board of Selectmen:

Gentlemen: The Board of Engineers appointed by your honorable board for the year ending April 30, 1920, met in accordance with your instructions and organized with the following officers:

Charles M. Litchfield, chief; Alfred B. Cole, first assistant chief; Joseph P. Murphy, second assistant chief; Harry M. Litchfield, district chief; Frank W. Litchfield, district chief and clerk of board.

This department has been called to twenty-six alarms during the year. The department has laid 14,900 feet of hose to these fires. The department has been called out of Town once during the year. At the time the fire department was organized in 1903 the valuation was \$3,369,645 and it increased to \$6,327,990 in 1919; this valuation has been steadily growing without any increased efficiency in the fire-fighting apparatus. The Town has been especially fortunate in not having had any disastrous fires, with the exception of the one at Humarock at which we were obliged to call for outside assistance which is not now available. Those who witnessed the good work of the Hull fire pumping engine can readily see what this department would be able to do with a similar piece of apparatus.

The cost of a pumping engine might at first consideration seem exorbitant but in view of the fact that it only means an assessment of .002 per cent on the 1919 valuation and the amount of taxable property which might be wiped out by a fire occurring in any of the congested districts with our present equipment, it seems to be the unanimous opinion of the Board of Engineers that the Town equip the fire department with an up-to-date pumping engine.

CHARLES M. LITCHFIELD, *Chief.*

ALFRED B. COLE, *First Assistant Chief,*

JOSEPH P. MURPHY, *Second Assistant Chief,*

HARRY M. LITCHFIELD, *District Chief,*

FRANK W. LITCHFIELD; *District Chief and Clerk.*

REPORT OF FOREST WARDEN

Scituate, December 31, 1919.

To the Citizens of the Town of Scituate:

The forest fires for the year have been few on account of the rainy summer season; there were a few fires in February, March and April, and a few this fall. The two largest fires of the year were those that had gotten beyond control of the party burning up trash, etc. We ought to make an effort to do all the burning of rubbish before the season is too far advanced so as to eliminate as far as possible these disastrous forest fires. I recommend an appropriation of \$500 for forest fires.

E. R. SEAVERNS,
Forest Warden.

REPORT OF WELCOME HOME COMMITTEE

To the Board of Selectmen, Scituate, Massachusetts.

Gentlemen: As Chairman of the Scituate Welcome Home Committee I have to report:

Owing to the enthusiastic co-operation of your Board, the generosity of the Town and the Town's residents and other friends and well wishers of our brave soldier and sailor boys, the work of your Committee has been most successful and a credit to your selection.

What at first was intended as a simple but hearty welcome to those boys and girls of the Town, who fearlessly and self-sacrificedly met the succoring call of humanity and under their country's direction threw themselves into the awful world war, from the first spread itself into a great affair which at its height and its conclusion put our Town on the world's permanent map of patriotic gratitude.

At the beginning it was understood that your intention was to have your Committee give to our returned sons and daughters a fitting banquet, dance and medals at a cost of \$500 to \$1,000. At your Committee's first meeting it developed that nothing would satisfy our grateful townspeople but a celebration which would surpass that of all other communities in the country of equal size of Scituate; we should have a large memorial tablet with fitting mounting in a park where nature's beauty would splendidly set it off, we should have on Independence Day a grand unveiling with music and oratory, and from the unveiling the assembled masses should march to an all-day festivity and then from a great building holding 5,000 people there should be presented to all our returned sons and daughters by orators of national repute the most beautiful bronze medal possible and to the parents and dear ones of those who went but did not return, an equally beautiful gold medal.

It was my privilege to present the park and to turn over the Dreamwold grounds to the Committee to use as it thought best.

I believe I draw no long bow when I say that never in the history of countless similar celebrations has there been the equal in impressiveness, beauty and heart and soul thrillness of that exquisite Fourth of July when at the end of an oration by Massachusetts' great War-Governor, Samuel W. McCall, and to the music of two full bands and the wild applause of over 4,000 mothers, wives, fathers, daughters, sweethearts and friends 170 uniformed boys and girls stood to have the honor badge fixed to their breasts.

The Sunday previous to this event, the same building was filled to bursting with an equally impressive audience who listened to the Memorial service of a large orchestra, a choir of five hundred and the seven Divines of Scituate and an address by the Right Reverend E. S. Rousmaniere of St. Paul's Cathedral, Boston, which amidst joy and pride brought tears to every eye.

At the close of the Fourth of July's medal presentation, an audience of between fifteen thousand and twenty thousand witnessed what was probably the largest and most beautifully complete war pageant that was ever set in the world outside great cities. This pageant filled the quarter mile long Dreamwold lawn, broken here and there with appropriate shrubbery and backgrounded with the Dreamwold Show Stables, Racing Stables and Riding Academy which afforded dressing rooms for the hundreds of participants and beautiful hidden bowers for bands and orchestra. Some idea may be had of the great occasion when I say that there were parked in the Dreamwold grounds some three thousand automobiles.

At 7 p.m., after the pageant, a great banquet was held in the Town Hall at the finish of which the dance began at the big Dreamwold Coach House, during which and until 1.30 a.m., moving pictures were shown on the outside to an audience estimated at from thirty thousand to forty thou-

sand who came from everywhere in between six thousand and eight thousand automobiles.

I dwell on this truly marvelous Welcome Home affair that it may go into our Town's annals to the everlasting glory of those whose ability, patriotism and strenuous efforts made the great success possible.

First. Your Board.

Second. The splendid Committee your Board selected.

Third. The Divines of the Town who from first to last urged from their pulpits and in house-to-house canvasses everything and more suggested by the Committee.

Fourth. The women of the Town, God bless them! How they did work and how they did prod the men folk to additional effort. Special credit is due the Scituate Woman's Club, Woman's Relief Corps, Independent Order of Odd Ladies, Co-ordination of Ladies' Aid Societies, Daughters of the American Revolution, American Red Cross, Girl Scouts, War Camp Community Service and many others.

Fifth. The girls of the Town who made possible the most beautiful of all pageants; not only was their work perfect, their enthusiasm unbounded, but the quantity and quality of their graceful beauty is beyond the description of my grateful pen.

I wish I might mention by name those to whom the Town is deeply indebted for their part in the making of our great success, but there are so many and my space so limited I must forbear.

After our celebration your Committee devoted its unabated efforts to the Memorial Tablet, Boulder and Park. The immense boulder for the tablet is in place. Its total cost including foundation, cutting and transportation was \$935.00, much less than the intended granite slab would have cost, and it is the unanimous opinion that it is more beautiful and appropriate. Its principal cost was for moving and placing. It weighed eighty-nine tons and was moved two miles. At the start-off its moving was considered impossible, but owing to the fact that the Town has an Archie Mitchell, who by the way gave the boulder, nothing of a like nature is impossible.

In the putting of the Memorial Park in the condition it must be put in, your Committee struck its only temporarily insurmountable task. When it had finished the round pond in the center, drained it properly, and had placed a few feet of finished turf around the Memorial Boulder and gone over the first plowing for big rock locations its fund was practically exhausted and the work yet undone at the lowest estimated cost called for \$2,500 for trees and \$8,000 to \$10,000 for leveling and lowering the park, building walks, seeding, etc. I have personally taken care of the trees, having brought from Dreamwold fifteen of my prettiest approximately thirty-year-old elms and planted them in the best possible positions. I have also personally purchased and brought from Framingham forty-two more which have been put in place. If we have good luck with them all, and we have used every care, we will have put one over on nature to the extent of having next year what otherwise we would not have had before twelve to fifteen years. If we can finish the park in the early spring, and I pray we may, we will have by centennial time next season one, if not the one, most beautiful Memorial Park in America or the world.

I trust the Town at the coming annual meeting will give sufficient funds to allow us to finish the Park in the early spring when it must be finished. The Town may rely upon me to contribute my share if for any reason it is found impossible to raise the entire amount by warrant. I suggest your Board frame a suitable article for the forthcoming annual Town Meeting.

The Treasurer's report follows which shows receipts and disbursements in detail.

Thanking your Board for the Committee, for furnishing the opportunity for the honor of participating in our boys and girls' welcome and particularly thanking your Board for making possible my humble efforts, I beg to remain,

Yours very truly,

THOMAS W. LAWSON, *Chairman.*

HARVEY E. DORR,
Treasurer.

The Selectmen at this time wish to express the thanks of the Town of Scituate to those who participated in the Welcome Home Celebration, and especially at this time do we wish to thank Mr. Thomas W. Lawson for the earnest, energetic and efficient manner in which he performed his duties as chairman.

It may be of interest to those not directly connected with this committee to know the many things that have been personally taken care of by Mr. Lawson, namely: gift of park property, use of buildings, car load of shavings, use of grounds and the cleaning up after the celebration, gift of all the beautiful trees that you may see at the park, and a cash donation of \$500.

All this having been accomplished in a patriotic spirit and for the best interest of the Town we feel has been appreciated and should receive the commendation of the townspeople.

ANSEL F. SERVAN,
G. DANA YEATON,
CHARLES W. PEARE,
Selectmen.

REPORT OF THE CLEAN-UP COMMITTEE

The Clean-Up Committee begs to submit the following report:

At the first meeting, plans were formulated for the carrying on of the work as follows: That the townspeople be informed that during the week commencing May 10 and ending May 15, 1919, by making application to the men engaged for the purpose, viz: Mr. Archie Mitchell at North Scituate and Mr. David O'Hern at Scituate Harbor, all rubbish, if placed in receptacles that could be handled, would be carted away and dumped at no expense to the townspeople.

Through the co-operation of the ministers, the Town paper and Mr. Walter Haynes, who displayed on the screen at his theatre at Scituate Harbor a notice to the above effect, and to all of whom the Committee is indebted for their help, ample notice was given regarding the disposal of rubbish, and more rubbish was cared for than in any previous year.

The Boy Scout troop, at North Scituate, was engaged to care for the streets in its district during the period from May to October 1, and rubbish barrels were placed at convenient points and emptied when necessary. At the Harbor, Mr. O'Hern attended to the emptying of the barrels.

In 1918, prizes were promised the children who had war gardens and cared for home grounds, which they did not receive prior to the formation of the 1919 Committee, so that it devolved upon the 1919 Committee to give the prizes, and thrift stamps to the value of \$43.25 were distributed among the children for their work of the previous year as an encouragement to further endeavor.

For the season last past, the Committee decided to offer silver cups to the pupils in the upper grades of the two Grammar schools and the High school, for the best and

next best home gardens planted and cared for by them, and six silver cups were purchased and awarded to the following pupils:

High School:

First Prize, Helen Bingham

Second Prize, Eleanor Biassey

Jenkins School:

First Prize, Mary O'Hern

Second Prize, Bertram Cole

Special Prize, to John Stonefield, of thrift stamps

Hatherly School:

First Prize, Elsie Bogdanoff

Second Prize, Marian Hobson

Respectfully submitted,

SCITUATE CLEAN-UP COMMITTEE,
P. R. EATON, *Chairman*.

REPORT OF THE TRUSTEES OF THE SCITUATE HISTORICAL SOCIETY

To the Inhabitants of the Town of Scituate:

The activities of the Historical Society, which has the old Cudworth House in its custody, are so public in their nature that little remains to be said in a formal report of its doings and accomplishments in the year just closed. The number of visitors to this ancient landmark have numbered near a thousand. The interest thus manifested in it and the history of other years which it contains, the opportunity which it affords for the preservation and exhibition of things intimately connected with early homes and the lives of the forbears of the present generation of Scituate citizens are all a source of satisfaction to the officers and members of the Society. The property is well maintained. The doors and blinds were painted again during the early summer and much embellishment added to the already attractive interior. Complete materials for the appropriate furnishing of the "best bedroom" on the second floor has already been given or promised when that room shall have been put in readiness to receive them. It is expected that the comparatively small amount necessary to do this will be raised among the members during the coming spring, when this two-hundred-year-old structure will be complete in its rehabilitation — a home of the fathers in the midst of the dwellings of the sons.

Respectfully submitted,

CHARLES H. TILDEN.

For the Trustees.

REPORT OF COMMITTEE ON STREET NOMENCLATURE

To the Inhabitants of Scituate:

The action taken by the Town four years ago which has resulted in placing the attractive signs upon the highways in Town appropriately renamed for those who founded it, has borne fruit outside of the Town limits. Following the change of the name of Main Street to the County Way the latter thoroughfare as it passes through Hingham, Marshfield and Duxbury has been so renamed in each of these towns. This beginning has found favor in other towns of both the ancient colonies of Plymouth and Massachusetts Bay. The Tercentenary Committee of the Town of Plymouth, its selectmen, the Pilgrim Highway Committee, the Quincy Planning Board and special committees appointed for the purpose from other towns, have already organized to mark with the same type of sign board used in Scituate and old granite milestones, the four highways used in both governments in the early colonial days, viz.; the Plymouth and Bay Road from Boston through Dorchester, Milton, Quincy and Weymouth to Hingham; the County Way from the latter town through Cohasset, Scituate, Marshfield and Duxbury to Plymouth; the Massachusetts Path, also from Hingham through Norwell, Hanover, Pembroke, Duxbury and Kingston to Plymouth, and the King's Highway from thence through the Cape towns to Provincetown. A bill putting the work directly under the supervision of the Massachusetts Tercentenary Commission and approved by it is already before the legislature for enactment.

During the last year subscriptions have been received from private sources which have enabled your committee to put new signs on many of the streets in different parts of the Town. To meet the many demands which have been pre-

sented to it an appropriation larger than those which have been made in recent years of only \$25 should be awarded to this work. One more County Way sign should be added to those already erected. New boards should be placed on Booth Hill and Mann Lot Roads. Kent Street, Otis Place, and the Beaver Dam Road ought all to be marked and the pre-war appropriation of \$250 for "sign boards and street boards" should again be made. At so insignificant a cost the Town should see to it that its example, already followed, should be maintained.

Respectfully submitted,

MARY A. FORD,
For the Committee.

1920

The Winter term begins January 5 and closes March 26.

The Spring term begins April 5 and closes June 25.

Summer vacation, ten weeks.

The Fall term opens September 8 and closes December 17.

The Winter term opens January 3, 1921.

HOLIDAYS

February 22, April 19, May 31, October 12, Thanksgiving Day and the day following.

REPORT OF SCHOOL COMMITTEE

To the Citizens of Scituate:

It is with pleasure that the School Committee submits the report of the School Department for your perusal.

This year shows many improvements, and careful examination of these reports will show a steady upward growth in ideals and practical methods. We feel sure you will be more lenient with the committee after you have studied the report and diagram of the Transportation System. It has been the greatest problem occupying a large part of the meetings in trying to equalize the service for fairness to the people of all parts of the town. The territory is so large and the children are so peculiarly scattered that this was difficult, having of course to bear in mind the limited amount to expend.

The committee felt it an important matter to insure busses against accident and this precaution has been taken.

In making up the budget for the year allowance has been made for increasing the teachers' salaries, that they may receive amounts adequate to the times and corresponding to the payments of other towns. If we wish to keep up the standard and hold our good teachers, this is an absolute necessity.

The School Committee endorses the idea of the District Nurse; is planning to use her in the school work as suggested.

Our meetings are held the first Tuesday evening of every month in the High School Building at eight o'clock, and are open for interviews with persons who care to give either suggestions or criticisms. This plan is much more satisfactory to all, than by doing it through the local papers or other methods where wrong impressions may be given.

Through the efforts of our Superintendent, Mr. Bragdon, the Public School Association appeared this year, proving

itself a very helpful organization. Through its efforts lunches are being tried in High School, and much in the way of lectures and community sings, which tend to unite all the villagers in a common interest at the High School Building.

The War Canning Committee donated its two oil stoves to the High School — these are in use every day at the Lunch Department which is proof of its being appreciated.

We take this opportunity to thank you for the generous support which has always been given to the Educational work, and this without doubt expresses the desire of the people for efficient schools.

We have given careful thought to the probable cost of maintaining the schools for the year 1920, and recommend that appropriations be made as follows:

For the Support of Schools,	\$33,500.00
For State-aided Vocational Department	2000.00
For School Committee,	250.00
	<hr/>
	\$35,750.00

Reimbursements from the State treasury will amount to \$3266.66, leaving the net amount to be assessed, \$32,483.34. We ask, therefore, for an appropriation of \$32,500 and the reimbursements received from the State on account of Schools.

(MRS.) RENA M. COLE,
(MRS.) MARION COLLIER ALEXANDER,
PHILIP S. BAILEY,

Committee.

REPORT OF SUPERINTENDENT OF SCHOOLS

To the School Committee of Scituate:

I have the pleasure of submitting herewith statistics, financial statement and reports of several officers in your employ, for the year ending December 31, 1919, and other matter which should be put on record because of future historical value, and at the same time invite consideration of some recommendations for the ensuing year, and the reasons for the same.

The enrolment up to December 19, 1919, is reported as follows: High School 88, Junior Department 44, Hatherly School 162, Jenkins School 206. Total 500.

The enrolment list has been checked off with the school census to determine how many pupils between the ages of 14 and 16 are unlawfully out of school. Twenty-two names were found of those apparently evading the law. This list has been investigated by the attendance officer, and each pupil is accounted for.

There is another large group of minors between the ages of 16 and 18 who have not secured the educational certificate required by the statute, and who therefore should be in school. Many of these are regularly employed, but by employers who do not comply with the law. Much of this illegal practice is due to ignorance of the law. As a part of the required course in civics, a series of lessons on the labor laws of the state might well be given to pupils of 13 years and over. Some means of informing employers of child labor should also be found, so that a wholesome respect for law and order may be taught to the next generation. As a step in this direction I have ordered a supply of the pamphlet issued by the Child Labor Committee of Massachusetts, entitled: "When You Go to Work."

Scholarship

The special task in the forward movement this year, in Scituâte, is the elimination of the ninth grade and the raising of the standard of scholarship in each grade proportionately. Seventeen pupils were certified from the Grammar schools to the High School in June. These constitute a class which gives promise of high attainments as High School pupils. The most serious criticism of our High School is that of low standards of scholarship. The ideals of the students are altogether too low. The pupils are too easily satisfied. Possibly a too indulgent administration has encouraged this indifference to scholarship. At any rate, a vigorous policy has been inaugurated by Principal Andrews to secure a more thorough preparation of assigned lessons. It is held that it is more just to the pupil, and better for the school, to eliminate from the several classes those who are manifestly either unable or unwilling to perform the assigned work, early in the year, rather than to allow those few to be a drag on the class until the end of the year and then drop out. A marked improvement in daily work is already reported. The pupils are feeling more keenly the imperative need of daily attendance.

Junior Department

The attempt to prepare the forty-three pupils who in June were neither eighth graders nor High School freshmen, to take up High School work next year as sophomores is succeeding even better than we anticipated. Though handicapped by physical conditions of the building, the class has on the whole manifested commendable interest in the work assigned, and there is reason to believe that a large number of them will succeed in overtaking those who entered High School as freshmen this year.

The same means of enforcing preparation of assigned work is used as in the High School. After repeated warnings and a period of probation those who do not do the work are to be reclassified, so as not to prevent the others from gaining the desired promotion in June. Numerous expressions

of approval of parents and very few criticisms of our plans and methods indicate that the parents of these children are co-operating splendidly.

The Grammar Grades

The removal of the ninth grade from the grade schools makes it necessary to revise upward the course of study in the other grades. It happens that for some reason both at the Jenkins and Hatherly schools the present seventh and eighth grades have not been brought up to even the former requirements, so that they start this year with a deficiency to make up and an added requirement because of the removal of the ninth grade. Excellent progress is being made but it hardly seems probable that in the space of one year the deficiencies can be entirely removed. Some simple tests designed to harmonize the work of corresponding grades shows that much is yet to be done before the eighth grade plan will be fairly in effect. All of our teachers are co-operating in the work and there seems to be no reason why the readjustment may not be completed by the end of this year.

Discipline

We notice a very marked change from one year ago in the matter of complaints concerning school discipline. Not only are complaints very few, but when made, they are made in a courteous and helpful manner. With very few exceptions, our teachers have the same ideal of so governing a school that the pupils shall learn the art of self-control and self-direction. Supervision and punishment for violation of rules there must be, and is, but the idea, "It is all right if I am not caught," should be supplemented by a more wholesome maxim of conduct, if we are to train up a strong moral, law-abiding generation of Americans.

Physical Training

Mention should be made of the Physical Training that is being given at the High School under the direction of Mr. Soles and Mr. Locke. I wonder, by the way, if the people

of Scituate properly appreciate the strength of our High School faculty. For a town of this size it is not often one finds so strong a teaching force. It is well worth a trip to the High School on physical training days to see what is being done to strengthen body and morals. Oh! for a building equipped for use in winter weather. Why can not the floor of the town hall be used for this purpose?

We have had for some years a limited physical inspection of each pupil once each year. With the inspection and a notice sent to the parents of pupils found suffering from certain conditions, this work has stopped. The revelations of the draft has awakened interest and anxiety for the relief of conditions responsible for so discreditable a showing in physical manhood. The advent of a district nurse and popular interest in physical health suggests that this is an opportune time for beginning the practice of a more thorough-going examination of pupils, and some follow-up work with those in need of medical care. A more carefully planned and faithfully followed course of instruction should be required in each school, under direction of the physician, nurse or other competent instructor.

I recommend also that pupils be admitted for the first time to Grade I, only after examination by the physician, and approval based on physical development and maturity, as well as on age.

Music

A forward movement in Music was contemplated in hiring a music teacher for two days per week, and has been realized to some extent. An elective girls' chorus has been started at the High School, and a boys' chorus is being developed under the leadership of Mr. Soles, and Mrs. Bessie Prouty who, as chairman of the Music Department of the Public School Association, renders timely and valued assistance. The operetta, *Little Red Riding Hood*, was presented in December, with credit to pupils and leaders. The program and cast is printed herewith. Occasional productions of this sort are very helpful, both as inspiration and motive

for the pupils and as revelations to the people of the ability and achievement of the pupils.

Because of ill health, Miss Faunce offered her resignation as Supervisor of Music, to take effect at the close of the fall term. Fortunately for us, in these times of "scarcity," Mrs. Linnie E. Davis, who holds a similar position in Marshfield and Duxbury, is able to give Scituate two days per week. Knowing her work for the past year in these towns we are confident she will be able to carry on the work in Scituate without serious interruption.

There should be in a town like Scituate a greater interest in the study of the piano and other musical instruments. To encourage such study, I recommend that before the opening of another school year, a definite proposition be formulated and incorporated in the course of study, whereby credit shall be given toward a High School diploma for specified attainments upon any of several musical instruments.

Vocational Training

We were visited in October by a representative of the State Board of Education who made a survey of our schools with reference to establishing here a state-aided school of Domestic Arts. This visit was a sequel to the visit of Deputy Commissioner Small to the Public School Association. Both the deputy and the inspector manifest real interest in the project. It seems easily feasible to add this most practical and much needed course to our High School program.

This course is designed to be vocational and so thorough and complete in itself as to really prepare the graduates to perform efficiently the work contemplated, in their homes.

The scope of the instruction to be offered is indicated by the following general outline:

Five-hour school day, one-half devoted to Household Arts.

First Year

Garment making and textiles (including laundry).

Food study and cooking.

General science as applied to the household.
Design as applied to garment making.

Second Year

Garment making and textiles (including laundry).
Food study and cooking (including meal planning).
Household management (including accounting).
Applied physiology, hygiene, home care of the sick and care of children.
Design as applied to the home.

Third Year

Garment making and textiles (including laundry).
House planning and furnishing.
Bacteriology and biology as applied to homemaking.
Design as applied to garment making.

Fourth Year

Advanced food study and cookery.
Home management, including budget-making and accounting.
Home care of the sick.
Care and nurture of children.
Physics and chemistry as applied to the home.

We are interested in securing this department for Scituate because of a conviction that our High School courses, as now constituted, are planned for the small percentage of pupils who are looking forward to college or other higher courses, and are very poorly adapted to give valuable preparation for living to those who either by nature or force of circumstances cannot profit by the so-called "higher courses."

Under the conditions attached to this course one-half the pupil's time is to be devoted to practical studies in some of several lines of homemaking industries, the other half of the time will be given to liberal studies as heretofore.

We have in the old High School building a suite of three small rooms, which are admirably adapted to serve as the headquarters for this department, as kitchen, dining room and sewing room. The instruction contemplated includes class instruction and demonstration at the school, and practice work in the pupils' homes under direction of the instructor.

Nor is the instruction limited to day pupils only. Provision is made for short unit courses which may be taken by any girl or woman, in day or evening classes, whenever there is a demand for such instruction. That there is some demand for such a school, is shown by the formation of classes in home nursing and cooking and sewing during the past year, under various school organizations. The State, through the department of vocational schools, comes to us with a proposition to reimburse the town for one-half of the expense of support of such a course, conducted in accordance with their standards.

I commend this project to your thoughtful consideration and urge that it be presented to the voters at the forthcoming town meeting, for their sanction. The ennobling vote should read as follows:

VOTED: That the town authorize the School Committee to establish and maintain state-aided vocational education in accordance with the provisions of Chapter 471, Acts of 1911, and acts amendatory thereto, or dependent thereon, and further authorize the School Committee to spend a sum not exceeding for the purpose.

Note. The first part of the vote is permanent. The appropriation must be renewed each year.

The Public School Association

The value of live organization of citizens as a factor in the educational program of a town is shown by the work already accomplished by our Public School Association. Without doubt much of the success of the schools is made possible by the interest and spirit of co-operation aroused through this organization. The Home Economics Department fur-

nishes an illustration. While there are many parents who are interested in providing something warm for the lunch of their children, very few have come forward with assurance of support. The Economics department have made it possible to give it a trial. A limited outfit has been provided, and the patronage is already increasing. Should the Home-making Course, referred to above, be started, the lunch question would be made much simpler in operation.

Sewing Classes Started

To try out the feeling of parents toward vocational studies for girls we have begun to give instruction in elementary sewing in the upper grammar grades. The young girls manifest genuine delight and interest in the lessons, which are eminently practical and will become increasingly educational as they progress. No expression of approval or of disapproval has come to me from parents as yet. We are wondering what the sentiment of mothers is.

Visual Instruction

On November 20 the Public School Association gave a demonstration of the value of pictures as instruments of instruction. This is a very pertinent subject for consideration in view of the necessity of utilizing every best means of quickly accomplishing the great variety of work prescribed for the schools. Pictures are the quickest means of conveying information of certain sorts. Modern invention has made it possible with the camera and accessory instruments to obtain through the eye in a short time a great mass of information which the child of today is expected to have and use. And knowledge gained in this way sticks.

A boy walking home from the "movie," expressed in action and language with excellent effect the ideas suggested by the pictures he had seen. This same boy in school seems to have no ability to express ideas. Why so?

It is said, "To travel, is to become educated." Many of our pupils will never travel. The only way they will see the world is by means of the camera. By the use of the stere-

ographs it is possible for the teacher to make the pupil for the moment think he is actually in a foreign land. A five minute lesson with a stereograph will teach a child more geography than a half hour lesson with a printed page, and the facts will be retained longer.

For class instruction, the stereopticon slide, which enables the instructor to direct the attention of the whole class to the same detail, is both efficient, attractive and a saver of time.

We have all needed conveniences at the High School for the utilization of this aid to instruction, except the lantern and some dark curtains for the auditorium and laboratory. We may well include in our scientific equipment a piece of projection apparatus.

This same outfit could be used at the Jenkins and Hatherly schools if electric current could be provided, which really should be provided, for several other good reasons.

Salaries

We are face to face with a situation unparalleled in school administration. Teachers' salaries have always been pitifully small. Now, they are absolutely impossible. Few people realize the meaning of the alarming shortage of teachers, caused by the withdrawal of thousands in favor of better paying employment. Rural communities suffer first and most severely since centers of wealth secure our best teachers. Justice to efficient teachers, as well as the preservation of our schools, requires large increases in salaries at once. As you well know, flat increases have already been granted in many towns, varying in amount from 25 per cent to 50 per cent of previous salaries. If Scituate does less, we shall lose every able and self-respecting teacher. I present herewith a revised salary schedule compiled from various sources and representing a conservative position.

Proposed Salary Schedule

To meet the changed conditions of living, and to protect ourselves from loss of teachers, the following schedule is proposed.

For rating in this schedule teachers are to be classified according to the provisions of the recent legislation on reimbursement for teachers' salaries. For the present and until further rulings are made by the State Department of Education, the qualifications of the several classes are as follows:

Class 1. A college or normal graduate with two years of experience.

Class 2. One year of professional training in a normal school or college and three years of experience, or a normal school graduate with one year of experience.

Class 3. All other teachers.

EQUIVALENTS ACCEPTED:

Successful experience of ten years may qualify for Class 1 without professional training.

Successful experience of five years may qualify for Class 2 without professional training.

A summer school session at a normal school or teachers' college may count as two years of experience in above equivalents.

Consideration will also be given to part time courses in certain institutions.

The reimbursement law provides that the town treasury shall be reimbursed for each teacher, annually, as follows:

\$200 for a teacher of Class 1 whose salary is not less than \$850.

\$150 for a teacher of Class 2 whose salary is not less than \$750.

\$100 for each teacher of Class 3 whose salary is not less than \$650.

SCHEDULE

For the Grades.

First year \$800.

Second year \$900, which shall be maximum for Class 3.

Third year \$1,000, which shall be maximum for Class 2.

Fourth year \$1,100.

Fifth year \$1,200, which shall be maximum for Class 1.

The principal of a building shall receive \$50 additional for each full time assistant.

HIGH SCHOOL

First year \$1,200.

Second year \$1,300, which shall be maximum for Class 3.

Third year \$1,400, which shall be maximum for Class 2.

Fourth year \$1,500.

Fifth year \$1,600, which shall be maximum for Class 1.

FOR HIGH SCHOOL PRINCIPAL.

Add to the maximum for an assistant \$100 for each full time assistant, and \$100 for each year of service in the school up to five years.

To be eligible for the High School schedule the teacher must be a college graduate. A Normal School graduate employed in the High School shall receive \$200 less than the schedule specifies, unless advanced in rating for special merit.

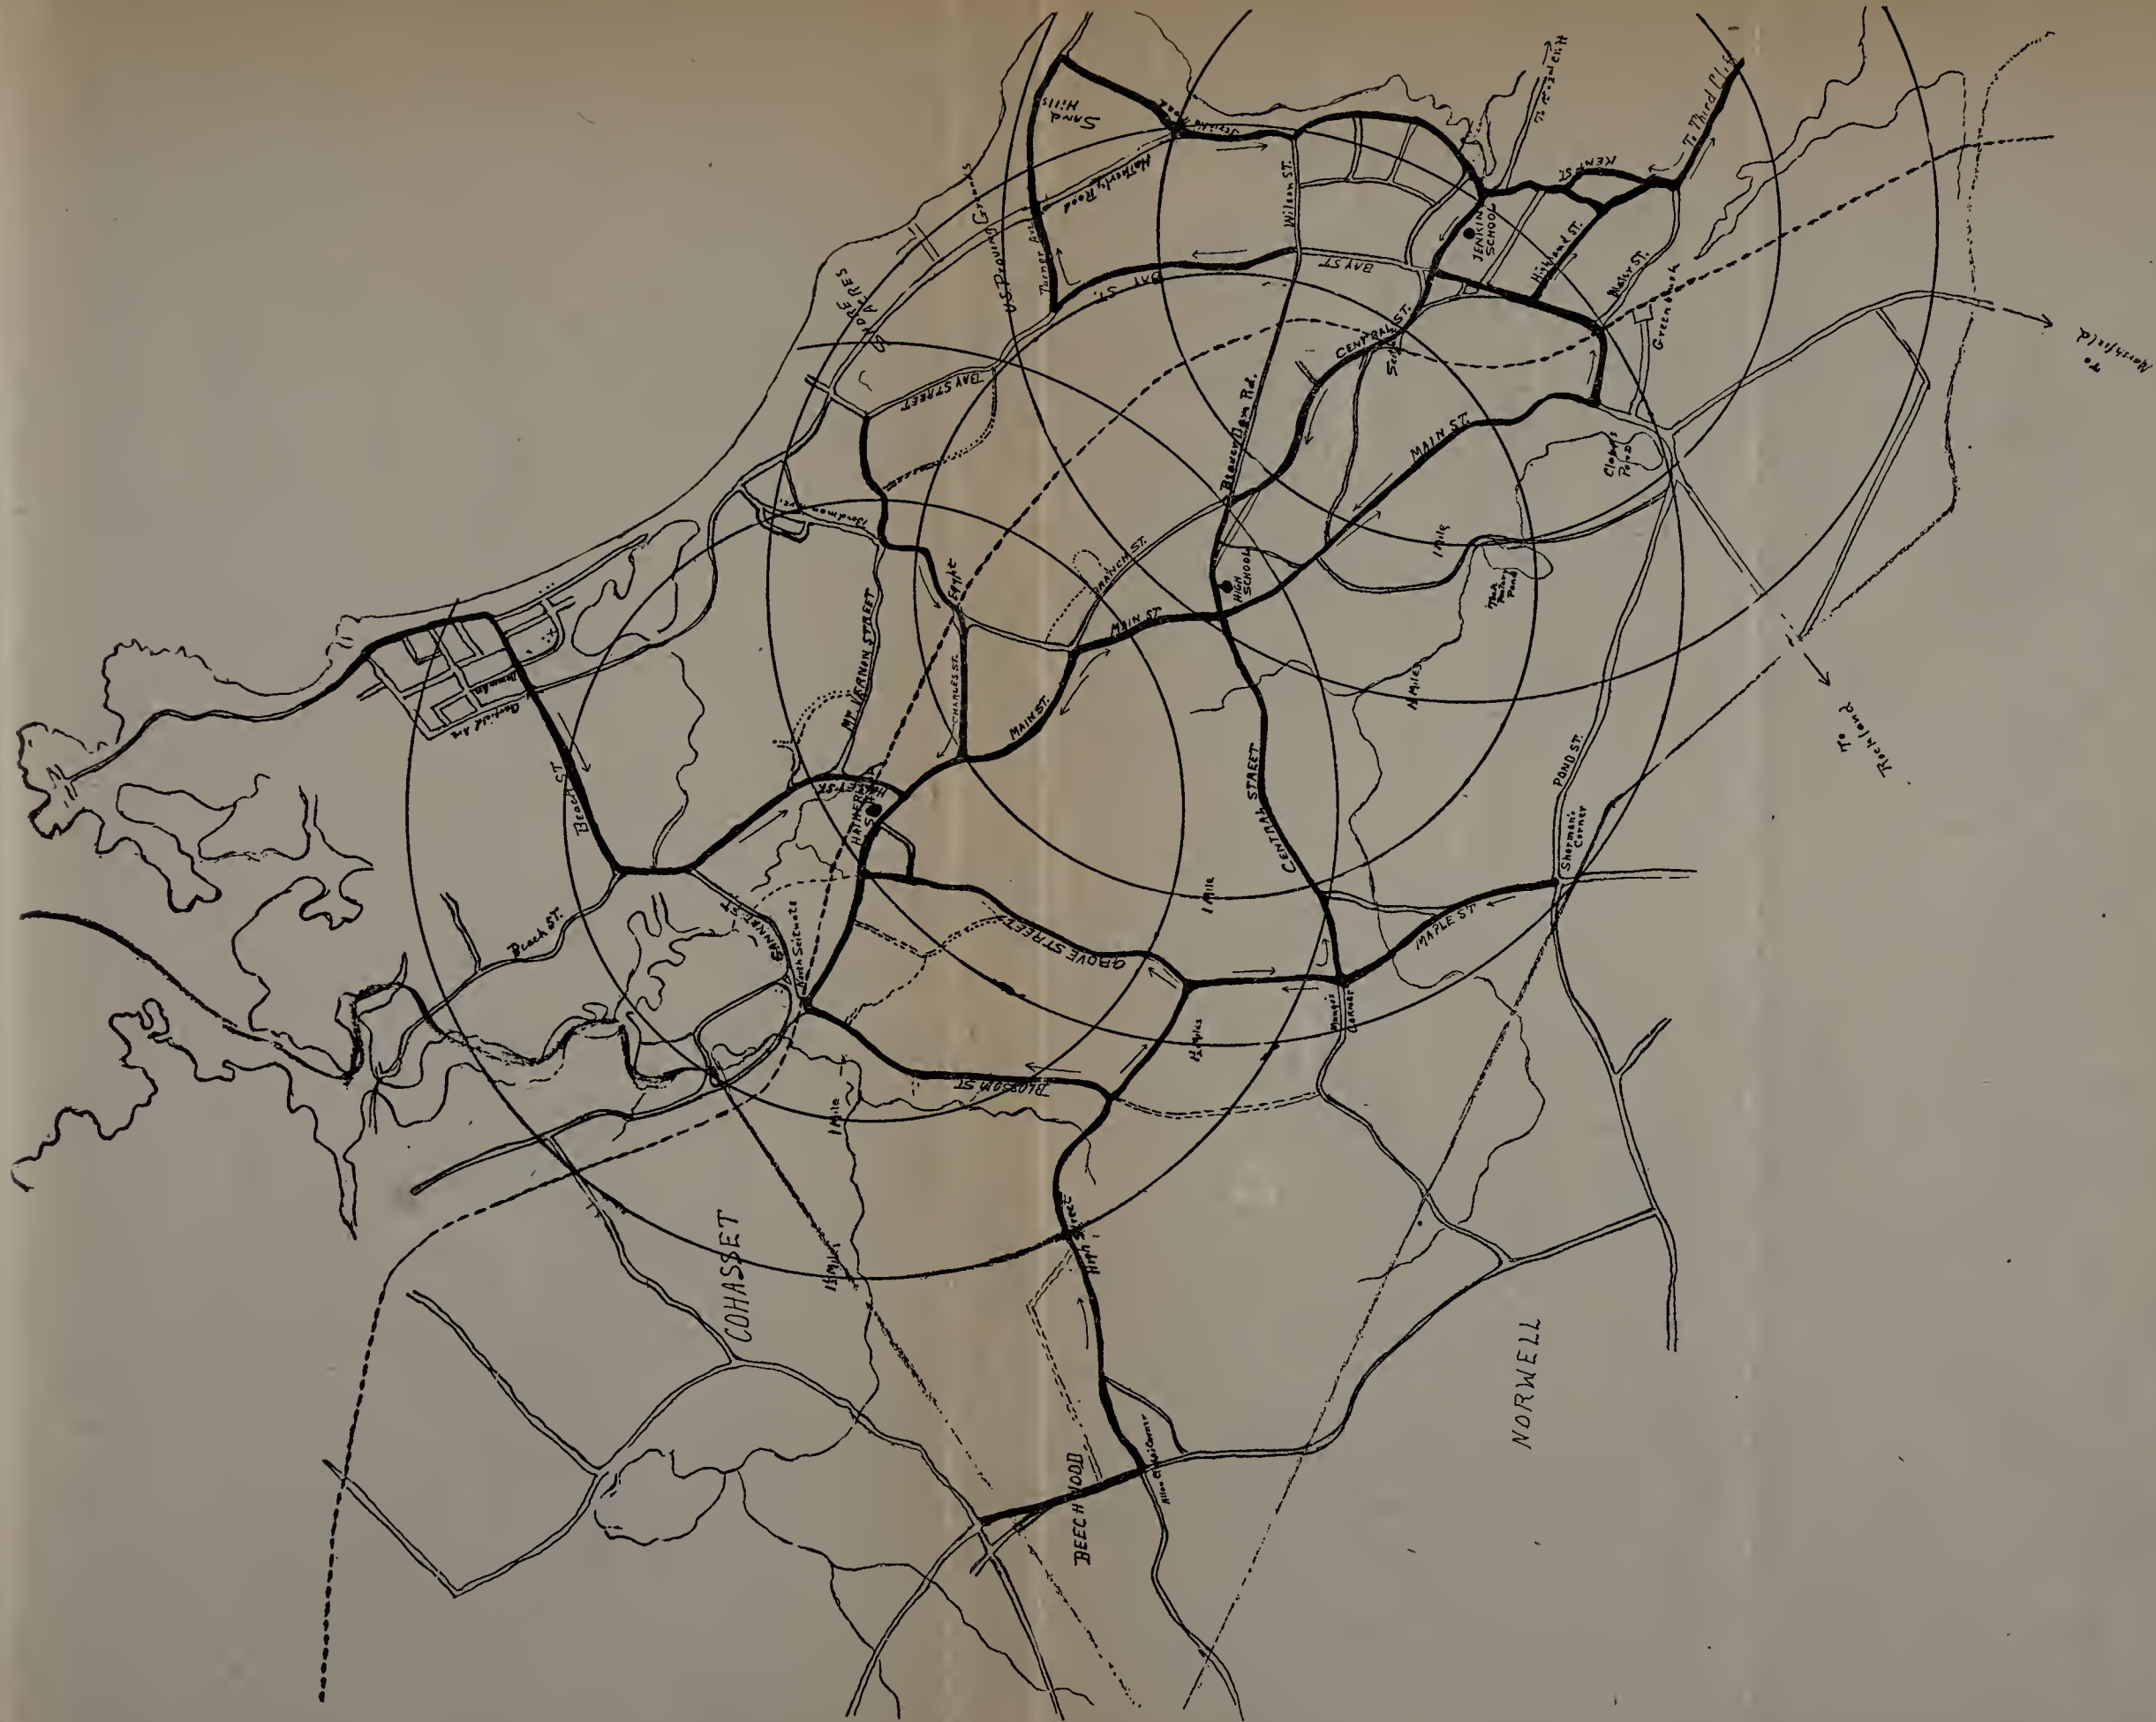

Salaries of special teachers and supervisors shall be determined in each case with reference to merit.

Substitute teachers shall receive 90 per cent of the regular teacher's salary, the same to be deducted from the salary of the absentee, except in cases of absence previously approved by the Committee.

The salaries proposed in this schedule shall not be in force in any instance, until formally voted for each individual, and the Committee, in adopting this schedule as a guide, reserves the right to advance or retard teachers in the schedule, in recognition of special merit or failure.

TRANSPORTATION

We still have transportation problems to solve. I present a map showing how the township area is covered by transportation routes today. It does not seem possible that there can be many children living at a great distance from one of these routes.

The routes are traversed quickly with comfortable motor vehicles. The only valid criticisms are those of insufficient capacity of some of the vehicles, and the cost of maintenance. Through a slip in charging up one week of January to 1919 expense account, we appear to have exceeded the appropriation by \$87.15. On the other hand, it must be remembered that we have had the present service only four months of the year 1919, and that the actual cost for ten months at the price paid today will be nearly \$11,000, including insurance. Any extension of present routes either in mileage or carrying capacity will still further increase the cost.

During the past ten months the cost has been at an average of \$36 per pupil for the year, which is approximately 80 cents per week, or 16 cents per day, or 8 cents per ride. From this point of view the cost is not excessive, as compared with reports from other towns. We are required by statute to provide a certain amount of transportation for pupils under the compulsory age limit. There are arguments in favor of extending the service to the High School group, and it seems to me something may be said in opposition to such service. It seems to me that the decision of this question should rest with the voters who must bear the expense.

These are some of the more important topics which are demanding attention at the present moment. While we are pleased with the achievements of the year, we are far from satisfied, and shall work for and expect even larger returns in 1920 from our united efforts.

The credit for what has been accomplished, and for whatever may be achieved during the coming year, is and should be shared by every teacher, without whose loyal co-operation and devotion to the tasks proposed, success will be impossible.

Respectfully submitted,

FREDERICK E. BRAGDON,
Superintendent.

REPORT OF THE PRINCIPAL OF THE HIGH SCHOOL

MR. F. E. BRAGDON,
Superintendent of Schools.

Dear Sir:

That a business may know where it stands, that it may know where and why it succeeds or fails, and that it may conduct its affairs intelligently and efficiently, it takes account of stock and balances its books occasionally. Why should not a school do a similar thing for a like reason?

In my report last year certain objectives toward which we might strive were set before us. These were (1) better attendance, (2) better discipline, (3) higher standards of scholarship, (4) additional subjects, and (5) some extra school activities. Another objective, not mentioned in the report but constantly held in mind by the teachers, is the development of a better school spirit.

To just what extent these objectives have been attained is hard to determine. Some quite definite statements, however, can be made regarding them.

(1) Attendance has been very much better thus far this year, than any time last year, as a comparison of this year's registers with those of last year clearly shows. This is largely due to these factors: (1) better health conditions in the community, (2) better transportation system, (3) placing a premium upon attendance and scholarship.

(2) Discipline has been much better this year than last and the conduct of our pupils, in general, much better. Both these facts indicate that we have to some extent accomplished the last objective — a better school spirit. Such a spirit has been brought about by pupils and teachers heartily co-operating in both work and play. We have been singing together, cheering together, entertaining together, playing together, and working together.

(3) Scholarship also has improved considerably. Evidence of this comes from a comparison of our present classroom work with that of last year. At our last teachers' meeting all agreed that our pupils are putting forth much greater effort and are getting correspondingly better results.

(4) Our new courses of study consist of two in drawing (mechanical and architectural), and two in music (a girls' chorus and a boys' chorus). Credit is also given for outside instruction on the piano.

(5) As for extra school activities we had last year a prize-speaking contest, out-of-door games and physical training for both girls and boys. This year we are having the games and physical training for the boys only. Our greatest difficulty in this connection is the lack of an indoor space to carry on this line of work on cold and stormy days. During the larger part of last year we ran a school paper in connection with the *Scituate Herald*. I regret to say that this project has been largely a failure this year. A lunch counter is in operation this year as last year, but along somewhat different lines.

All this suggests that some of our objectives, or ideals, of last year have been attained. But an ideal is a fleeting thing. The nearer we approach it the farther away it moves. The ideals and objectives of last year are just as large and just as far away now as then. We have moved a little nearer, but they have moved a little farther on. May we not set for ourselves this year objectives similar to those of last year — better school spirit, better conduct, and higher scholarship, or the habit of success. These are the great objectives. All others are secondary to them. All extra school activities, all the new courses of study, important as they are, are merely means to the ends of a splendid school spirit, right habits of conduct and higher scholarship, or habits of success.

The total enrolment this year is eighty-eight (88) as compared with one hundred two (102) last year, a decrease due largely, I think, to improvements in the system of promotion, and the creation of the Junior Department.

Regarding the teaching force I wish to say I have never met before in my experience a group of teachers with such a splendid spirit of co-operation and with so uniformly high degree of success in both discipline and instruction.

In conclusion, I want to express appreciation for the support of all school officers, for the patience and co-operation of parents, for the help of the various branches of the Public School Association, and for the response of the pupils, given to us who are directly responsible for the proper functioning of the High School.

Respectfully submitted,

W. V. ANDREWS,
Principal

REPORT OF SUPERVISOR OF DRAWING

TO MR. F. E. BRAGDON,
Superintendent of Schools:

A large exhibit of all the representative work done in the Scituate schools and given at Assembly Hall, Scituate High School, last June, demonstrated plainly enough how large a percentage of able draftsmen Scituate possesses. The work at the Scituate High School has been extended considerably, there now being three classes in drawing every Tuesday: the architectural drawing class and the free-hand drawing class conducted by myself, while the mechanical drawing class, added this year, is being conducted by Mr. Locke.

The Junior High School also covers the same subjects as the High School with the exception that the work here is less difficult and more preparatory for the advanced work of the High School.

At the Jenkins and Hatherly schools the Primary grades have added fancy work for the little ones this year. This work consists of paper cutting and tracing around forms, most of it being conducted by the teachers in charge. In the Grammar grades geometric drawing has been added to the regular course in use.

It seems to me that the Scituate High School workers in the drawing classes possess ability of a very high order, in fact their work is of professional calibre and they desire the chance to do work that is ordinarily confined to the art schools. A small outlay of \$50 or \$60 would cover the cost of plaster casts of heads and the human figure to draw from. A few wooden pedestals too, large drawing boards and cheap chairs to be used as easels would be sufficient equipment to start with and I feel sure that the work done in the school merits the highest encouragement for vocational work. Were this feature to be added, much more variety and many

different results would be added. Chalk talks upon artistic anatomy, applied perspective and commercial drawing could be added, each correlating with the other for a practical result. I believe that a year's demonstration of this plan would result in a vast benefit for all concerned in a practical drawing course. To hold the best workers back who are able to go much farther in drawing would and does retard their development, and I respectfully urge that this equipment may be added in order to show what may be accomplished.

Respectfully yours,

SAMUEL WARNER.

REPORT OF SUPERVISOR OF MUSIC

MR. F. E. BRAGDON, *Superintendent.*

Dear Sir:

Owing to the vacations during the previous term, due to influenza, and to the many changes in teachers, the first of January, 1919, found our music somewhat less accomplished than usual at that time of year. However, conditions improved during the winter term and by the end of June we could report a fair year's work and were able to furnish acceptably the usual music for the High School and Ninth Grade graduations, also to assist in preparing for the closing entertainments of the grades.

Many changes in the work began with the new school session in September. The supervisor now spends two days of each week in the schools, which enables her to visit every grade each week. By this means she can keep more closely in touch with the work in each room and give more help to both students and teachers. The work at the High School has also been enlarged. Besides the general chorus work, which includes every student in the school, we have an elective chorus — the Girls' Glee Club — which meets each week for special training. During the fall this chorus has acquired a repertoire which is available for any occasion where it may be of use. The boys, also, have organized a chorus and under the leadership of Mr. Soles have developed great enthusiasm for singing. There is another general chorus from the Junior High School and plans have been made for special chorus work in the three upper grades at both the Jenkins and Hatherly schools.

On December 12, under the auspices of the music department of the Public School Association, the operetta, "Red Riding Hood's Rescue," was given by children selected from the grades, aided by three students from the High School.

I wish to express to the teachers my appreciation of their help and co-operation, without which results would be impossible. And particularly I wish to express my gratitude to those who so faithfully aided in drilling the choruses for the operetta.

Respectfully submitted,

ANGIE M. FAUNCE,
Supervisor of Music.

REPORT OF TEACHER OF SEWING

MR. F. E. BRAGDON,
Superintendent of Schools.

Dear Sir: In September classes in sewing were started in the 6th Grade at the Hatherly and Jenkins schools. The line of work entered upon was extremely elementary, due to the inability of the pupils; it was, however, of a practical nature. Later the same line of work was extended to the 7th and 8th Grades of both schools.

The progress in all classes, though not rapid, has been encouraging.

The parents have shown their interest by furnishing at all times materials with which their children work. This is greatly appreciated.

The report regarding the lunch is necessarily brief. Hot soup or cocoa has been served since the Thanksgiving Recess.

The hot lunch is served to those pupils only, who by payment of fifty cents become members of a so-called "Lunch Club." The money thus received goes to help defray the expense of equipment.

The growing membership of this club is especially encouraging and it is hoped later a more complete lunch may be served.

I wish to thank, at this time, those parents and teachers who have given their help and co-operation in introducing into the Scituate Schools a simple course in so-called "Home Economics."

Respectfully submitted,

EDITH R. HADLEY.

REPORT OF SCHOOL PHYSICIAN

To the Scituate School Committee:

In examining the pupils this year special attention has been paid to heart disease, enlarged glands and anemia, and the relation of these afflictions to bad teeth, tonsils and adenoids.

Neglected teeth are soon followed by decay and the result is an ever increasing absorption of poison.

Tonsils and adenoids neglected result in mouth breathing and a consequent resistance to disease. The air which should be filtered and warmed by its passage through the nose is breathed directly into the throat, cold and dust-laden as it may be.

The neglect of these diseased tonsils and adenoids and lack of care of the teeth is often shown in the enlargement of the lymphatic glands of the neck and the end result in some of these cases may be rheumatism or heart disease and a general reduction in vitality, with under-weight and anemia.

With the advent of the District Nurse in school work a more careful watch can be paid to those needing extra attention. Incipient disease in pupils unfit to be in school would be more promptly noticed as well as the more flagrant cases where it is to the child's physical advantage to be out of school.

Such special attention can be given to instruction in personal hygiene as should have a decidedly beneficial result.

Several pupils have been sent home this year because of infectious skin disease, and two who were in such poor physical condition that their own health was involved.

As a matter of health I would advise the students at the High School to patronize the Hot Lunch department which has been inaugurated by the Public School Association.

It is my custom to examine every pupil at least once every year and that plan is being followed this year.

The sanitary condition of the school buildings is excellent.

Thanking the pupils, parents, and school authorities for their co-operation, I beg for a continuation of the same.

Respectfully submitted,

T. B. ALEXANDER, M.D.,
School Physician.

ANNUAL REPORT of the OFFICERS of the Town of Scituate

MASSACHUSETTS

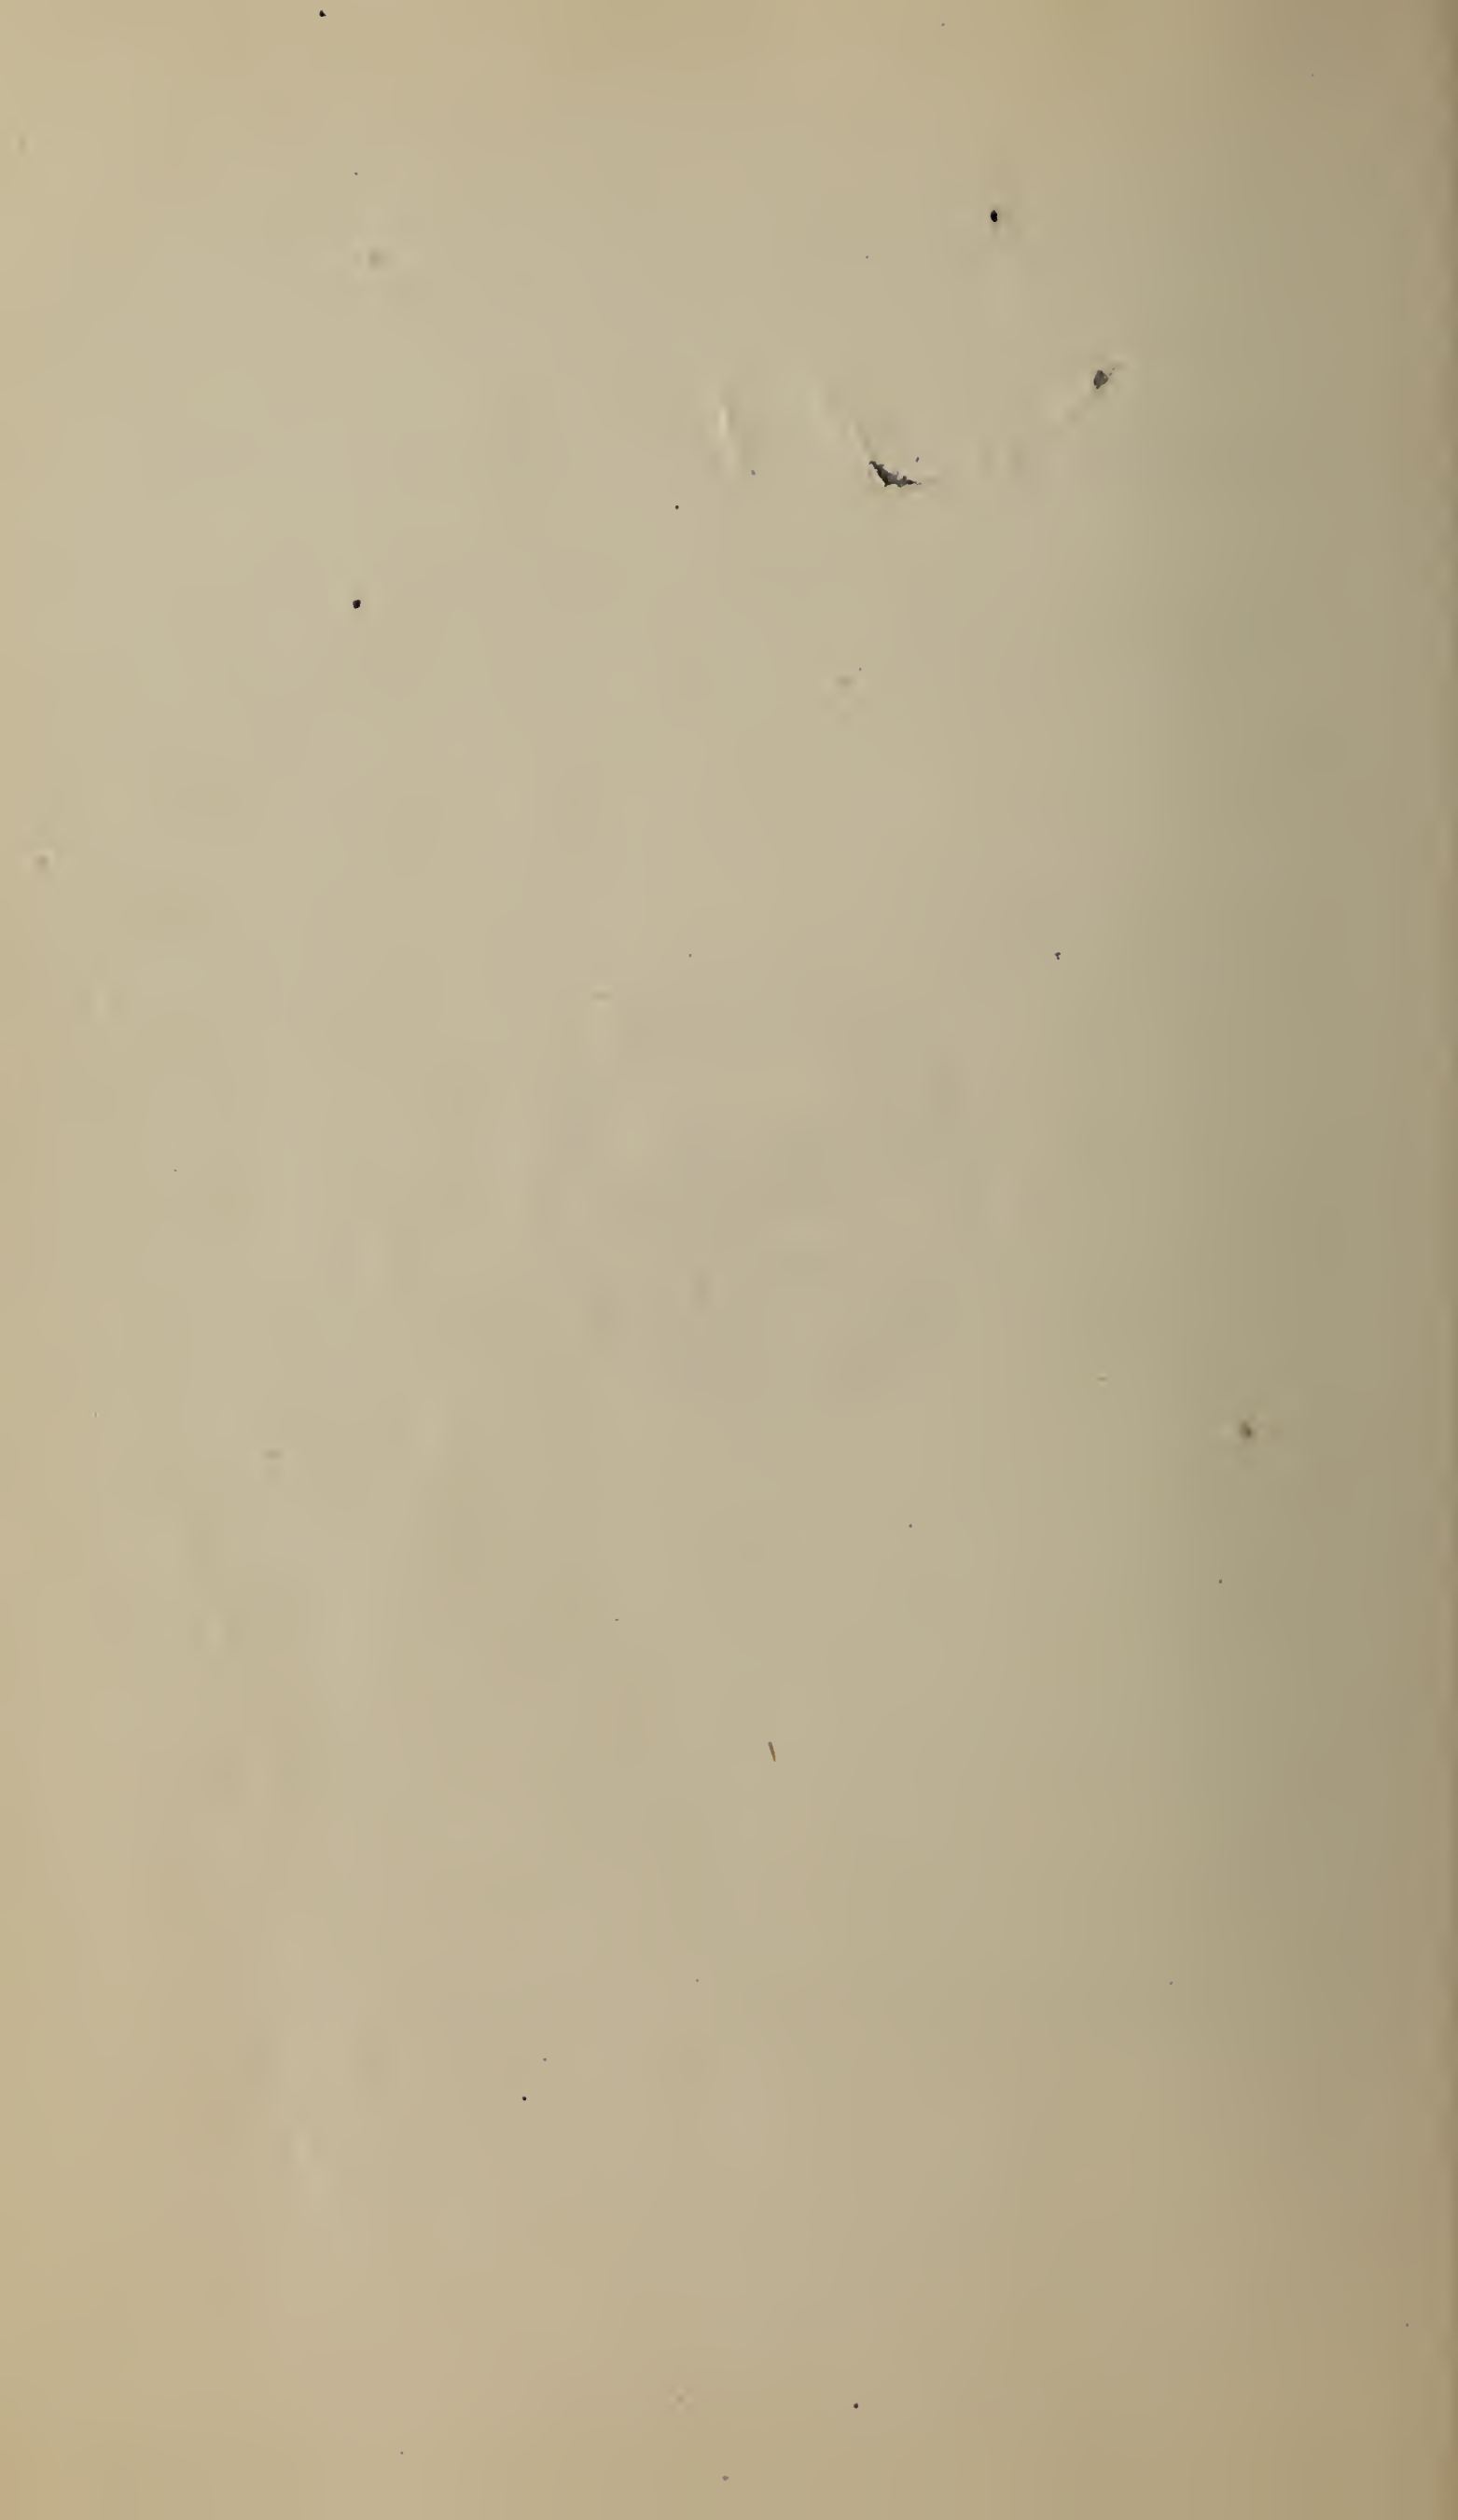

For the Year Ending December 31
1920

ANNUAL REPORT
OF THE
Officers of the Town of Scituate
FOR THE
YEAR ENDING DECEMBER 31, 1920

PRINTED BY THE BOUNDBOOK PRESS, NORTH SCITUATE, MASS.

TOWN OFFICERS, 1920

Selectmen, Assessors, and Overseers of the Poor. — ANSEL F. SERVAN, Chairman, Scituate; CHARLES W. PEARE, Egypt; ERNEST R. SEAVERNS, North Scituate.

Town Clerk. — JETSON WADE, Greenbush.

Treasurer. — WILLIAM P. RICHARDSON, Scituate.

Collector. — ALBERT D. SPAULDING, North Scituate.

School Committee. — PHILIP S. BAILEY, Chairman, North Scituate; MARION C. ALEXANDER, Scituate; W. CLEVELAND COGSWELL, North Scituate.

Superintendent of Schools. — F. E. BRAGDON, North Scituate.

Board of Health — DR. WILLIAM P. GROVESTEN, Chairman, North Scituate; GEORGE T. OTIS, Scituate; JOHN W. BURKE, Scituate.

Highway Surveyor. — ARCHIE L. MITCHELL, North Scituate.

Park Commissioners. — WILLIAM H. NORTH, Chairman, Minot; JOHN F. DALBY, Egypt; FRANK H. BARRY, Scituate.

Chief of Fire Department. — CHARLES M. LITCHFIELD, Egypt.

District Engineers. — District No. 1, ALFRED B. COLE, Scituate; District No. 2, FRANK W. LITCHFIELD, Greenbush; District No. 3, HARRY M. LITCHFIELD, North Scituate; District No. 4, JOSEPH P. MURPHY, Minot; District No. 5, CHARLES M. LITCHFIELD, Egypt.

Police Officers and Constables. — JOHN F. TURNER, Chief, Egypt; CHARLES M. LITCHFIELD, Egypt; ELMER F. BURROWS, Scituate.

Registrars of Voters. — CHARLES F. CLAPP, Chai man, Greenbush; JETSON WADE, Clerk, Greenbush; WALTER J. STODDARD, North Scituate; WILLIAM STANLEY, Scituate.

Auditor. — WILLAM M. WADE, Greenbush.

Tree Warden and Local Moth Superintendent. — WILLIAM F. FORD, North Scituate.

Sealer of Weights and Measures. — RUSSELL T. KNOX, North Scituate.

Forest Fire Warden. — CHARLES M. LITCHFIELD, Egypt.

Advisory Board. — WALTER HAYNES, Chairman, Scituate; PETER W. SHARP, Secretary, North Scituate; WILLIAM O. CLAPP, North Scituate; HAROLD W. POLAND, North Scituate; PAUL R. EATON, North Scituate; WILLIAM W. WADE, Egypt; ROGER S. DIX, Greenbush; DR. HARRY F. CLEVERLY, Scituate; WILLIAM E. SUPPLE, Scituate.

Surveyors of Lumber, Measurers of Wood and Bark. — ANSEL F. SERVAN, Scituate; GEORGE S. BAILEY, Egypt.

Fence Viewers. — Selectmen.

Field Drivers. — Constables.

Pound Keeper. — CHARLES G. EVERETT, Scituate Center.

REPORT OF COLLECTOR OF TAXES FOR 1920

COLLECTOR'S REPORT FOR YEAR ENDING DECEMBER 31, 1920

Total amount of taxes collected..	\$188,627 08
Total interest received on taxes..	2,121 38
	<hr/>
	\$190,748 46

The amounts are divided as follows:

TAXES OF 1917

Uncollected January 1, 1920.....		\$1,878 52
Interest received on bills of 1917.		177 72
Paid treasurer.....	\$1,232 01	
Abatements, 1917.....	824 23	
	<hr/>	<hr/>
	\$2,056 24	\$2,056 24

TAXES OF 1918

Uncollected January 1, 1920.....		\$6,285 07
Interest received on bills of 1918.		547 95
Paid treasurer.....	\$6,068 13	
Abatements, 1918.....	24 22	
Uncollected January 1, 1921.....	740 67	
	<hr/>	<hr/>
	\$6,833 02	\$6,833 02

TAXES OF 1919

Uncollected January 1, 1920.....		\$46,332 28
Interest received on bills of 1919.		1,308 41
Paid treasurer.....	\$42,441 98	
Abatements, 1919.....	819 20	
Uncollected January 1, 1921.....	4,379 51	
	<hr/>	<hr/>
	\$47,640 69	\$47,640 69

TAXES OF 1920

Tax bills for 1920, including 711 polls, issued in June.....		\$196,881 64
Omitted assessments, December 20, 1920.....		379 61
Interest on bills of 1920.....		87 30
Paid treasurer.....	\$141,006 34	
Abatements, 1920.....	918 16	
Uncollected, January 1, 1921....	55,424 05	
		<hr/>
	\$197,348 55	\$197,348 55

There were committed to the Collector 711 poll tax bills in June. Of this number, 710 have been paid in full; and one, being an illegal assessment, was abated. The town has established an enviable and patriotic record of 100 per cent in the payment of its complete poll tax levy for 1920.

Respectfully submitted,

ALBERT D. SPAULDING,
Collector of Taxes.

January 1, 1921.

WILLIAM P. RICHARDSON,
Treasurer.

AUDITOR'S REPORT

Scituate, Mass., January 15, 1921.

I have examined the accounts of the Selectmen, Overseers of the Poor, Tax Collector and Treasurer for the year ending December 31, 1920.

Payments authorized by the Selectmen were made by the Treasurer to the extent of \$340,847.04.

All accounts were found to be correct and properly vouched for, according to detailed printed reports of the Officers above mentioned.

WILLIAM M. WADE,
Auditor.

REPORT OF TOWN CLERK

SPECIAL TOWN MEETING, JANUARY 3, 1920

Moderator, Dennis H. Shea.

ARTICLE 2. Voted, That the Town raise and appropriate the sum of \$5000 for the repair of the sea wall, under the Bluff at Minot, to be expended in conjunction with appropriations received from the State and the County Commissioners, said sum to be raised from the current tax levy of 1920.

ANNUAL TOWN MEETING, MARCH 1, 1920

For the transaction of business at 9 o'clock a.m.

ARTICLE 1

Dennis H. Shea was elected Moderator by ballot.

Tellers appointed by the Moderator: Albert D. Spaulding, William E. Supple and Henry A. Litchfield.

ARTICLE 2

To choose all necessary Town Officers other than those elected by ballot. Surveyor of Lumber, Measurer of Wood and Bark.

Voted, Ansel F. Servan and George S. Bailey.

Fence Viewers. Voted, That the Selectmen serve as Fence Viewers.

Voted, That the Constables serve as Field Drivers, John F. Turner, Charles M. Litchfield and Elmer F. Burrows.

Voted, For Pound Keeper, Charles G. Everett.

ARTICLE 3

Voted, That the Town accept the Report of the Selectmen and other Town Officers, as printed in the Town Report.

As recommended by the Advisory Board that each paid Town Officer should receive a salary as fixed by the voters. It was Voted, That a committee be appointed by the Moderator to draw up and submit to the voters at a subsequent Town Meeting, a schedule of salaries to be paid to the various town officials.

Appointed for said committee: John T. Fitts, William E. Supple, John D. Ferguson, Herbert F. Bates and Robert J. Litchfield.

ARTICLE 4

To raise such sums of money as may be necessary to defray the expenses for the ensuing year, and make appropriations for the same. Voted:

	\$167,828 41

ARTICLE 5

Voted, That the Town do authorize its Overseers of the Poor to contract at their discretion for the support of the Town's poor.

ARTICLE 6

Voted, That the Town do authorize the Town Treasurer, with the approval of the Selectmen, to borrow during the financial year beginning January 1, 1921, in anticipation of the collection of revenue of said year, such sums of money as may be necessary for the current expenses of the Town, but not exceeding the limit fixed by law, giving the note

or notes of the Town therefor, payable within one year from the dates thereof, and to renew such note or notes as may be given for a less period than one year, provided the limit of one year is not exceeded thereby. All debts incurred under this authority shall be paid from the revenue of the then current year.

ARTICLE 7

To hear the report of any committee heretofore chosen.

ARTICLE 8

Voted, That the Town authorize the Selectmen to prosecute, compromise or defend any suit or suits within the Commonwealth in the name of the Town.

ARTICLE 9

Voted, That all taxes shall be payable by November 1 of the year when assessed, and that all taxes unpaid after said November 1 shall draw interest at six per cent from the fifteenth day of October until paid.

ARTICLE 10

Voted, That the Town do instruct its Selectmen to control, regulate or prohibit the taking of eels, clams, quahaugs, razor fish and scallops within the Town of Scituate, in accordance with Chapter 91, Section 85, Revised Laws, as amended by Acts of 1913, Chapter 517, and further amended by Acts of 1915, Chapter 86.

ARTICLE 11

To raise and appropriate \$2500 as a reserve fund.
Voted, No.

ARTICLE 12

Voted, That the Town raise and appropriate \$2500 to complete the work on Surfside Road, etc.

ARTICLE 13

Voted, \$300 for the collection and disposal of rubbish throughout the Town, under the direction of the Clean-Up Committee.

ARTICLE 14

Will the Town raise and appropriate \$10,000 for a pumping engine?

Voted, No.

ARTICLE 15

Voted, That the Town instruct the School Committee to carry the Scituate Center children living on the route of the jitneys going in that direction to the Hatherly School.

ARTICLE 16

Repairs on Elm Street.

Voted, To indefinitely postpone.

ARTICLE 17

No, 470.

TOWN CLERKS' CONVENTION

At a meeting of the Town Clerks of the several towns comprising the Second Plymouth Representative District, held at the Town Clerk's Office in Marshfield on Friday, the twelfth day of November, 1920, at 12 o'clock noon, it was ascertained by the returns from each town that the number of votes cast for each candidate for Representative to the General Court on Tuesday, the second day of November, 1920, was as follows:

	<i>Ernest H. Sparrell of Norwell</i>	<i>Scattering</i>	<i>Blanks</i>	<i>Total</i>
Marshfield.....	479	2	80	65
Duxbury.....	441	1	135	577
Pembroke.....	272		50	328
Norwell.....	423	1	51	475
Scituate.....	834		164	998
	<hr/> 2455	<hr/> 4	<hr/> 480	<hr/> 2939

Ernest H. Sparrell of Norwell having a majority of the votes returned was declared elected and his certificate was made out in accordance therewith.

SHIRLEY R. CROSS, *Town Clerk of Marshfield.*

GEORGE H. STEARNS, *Town Clerk of Duxbury.*

WILLIAM A. KEY, *Town Clerk of Pembroke.*

JOSEPH F. MERRITT, *Town Clerk of Norwell.*

JETSON WADE, *Town Clerk of Scituate.*

Attest: JETSON WADE,
Town Clerk.

SPECIAL TOWN MEETING, DECEMBER 16, 1920

Moderator, Dennis H. Shea.

ARTICLE 2

To see if the Town will raise and appropriate a sum of money to build an addition to the Town Hall, etc.

Voted, To postpone action under Article 2 until the Annual Meeting in March, 1921.

ARTICLE 3

Voted, That the Town accept the provisions of Chapter 585, Sections 1 to 6, inclusive, of the Acts of 1920, entitled an act to provide for the protection of the shores in the Town of Scituate.

57 in favor; 1 against.

ARTICLE 4

Voted, That there be raised and appropriated the sum of \$25,000 to be spent in conjunction with similar amounts to be raised by the County of Plymouth and the Commonwealth of Massachusetts, to begin the work of shore protection in the Town of Scituate in 1921, \$5000 of this sum to be paid from the taxes of 1921, and that the Treasurer be and is hereby authorized with the approval of the Selectmen to borrow the balance, \$20,000, on serial notes of \$2000 each, to extend over a period of ten years from the date of issue of the first note or at such earlier date as the Treasurer and the Selectmen may determine. Chapter 719 of the Acts of 1913.

54 in favor; none against.

Attest: JETSON WADE,
Town Clerk.

REPORT OF THE PARK COMMISSION FOR 1920

The money appropriated by the Town to be expended under the direction of the Park Commission has been used to the best advantage, although we have found an unfortunate lack of interest on the part of some of our citizens in taking the proper civic pride in certain locations. We believe this is largely owing to the general unrest and is not due to the fact that they do not take a real interest in the welfare of Scituate. The funds appropriated for "Light-House" improvements have been expended with a view to permanency, and we believe that the work accomplished has added much to what will be a valuable asset to historic Scituate.

Respectfully submitted,

WILLIAM H. NORTH,
JOHN F. DALBY,
FRANK H. BARRY,
Park Commissioners.

The improvements at Minot, carried on out of funds contributed by the North Scituate Beach Association, are not yet completed, having been stopped by the cold weather. These improvements will, however, be continued in the spring, and probably finished early in the season. Details of expenditures will be found in the treasurer's report.

Respectfully submitted,

WILLIAM H. NORTH,
Chairman of Park Commission.

REPORT OF TREE WARDEN

To the Selectmen and Town Citizens:

I have this year planted seventy-six trees. Most of them are ones reset in different parts of the Town. There are very few streets in our Town that have not shade trees. I have mowed around all trees and given them a fair amount of fertilizer. They are all growing and will in time make fine trees.

The bushes are a great problem. They seem to grow very fast, and should be mowed every year. We have a good many miles of streets in our Town that are very narrow and, if the bushes are let to grow, make travel dangerous.

We have also many blind corners that if we do not look after, accidents will be numerous.

I wish to state that the North Scituate Improvement Association has taken a great interest in shade trees in that part of the Town. They have bought from the Bay State Nursery some handsome lindens and maples that will in time make that part of the Town very attractive.

Considering our position as a Town where a great many people come to spend the summer, I think we should make it as attractive as possible, for they are a class that appreciate natural beauties.

Respectfully,

WILLIAM FORD.

REPORT OF BOARD OF HEALTH

To the Citizens of Scituate we present our report for the year 1920:

There has been no epidemic in Town during the year and about the usual number of cases reported.

Scarlet fever, thirteen cases; measles, fifteen cases; whooping cough, nine cases; diphtheria, five cases; mumps, three cases; typhoid fever, four cases; tuberculosis, two cases.

We have inspected every dairy and cow-barn in Scituate twice during the year and we are happy to report that there is a marked improvement since our first inspection and our recommendations have been carried out in most cases.

We have had a good many complaints about the dumping of rubbish, tin cans and such like, in some cases where they annoy residents, and in other places where they become a public nuisance. We recommend that anybody who has tin cans to dispose of, dig a hole in the ground and bury them. Otherwise they create flies, insects of all kinds and give off offensive odors.

Respectfully submitted,

WILLIAM P. GROVESTEN,
GEORGE T. OTIS,
JOHN W. BURKE,

Board of Health.

REPORT OF INSPECTOR OF PLUMBING

Egypt, Mass., January 1, 1921.

Board of Health, Scituate, Mass.

Chairman: I have issued permits for all applications to perform plumbing that have been presented to me. I have inspected same and found they conform with all plumbing regulations.

Respectfully yours,

ARTHUR R. MERRITT,
Inspector of Plumbing.

REPORT OF INSPECTOR OF MILK

Scituate, Mass., 1920.

To the Citizens of Scituate:

There were sixteen licenses issued for the year 1920, an increase of two over the preceding year.

The milk has been tested through the past year and has shown an improvement in quality.

Respectfully submitted,

GEORGE T. OTIS,
Milk Inspector.

REPORT OF INSPECTOR OF SLAUGHTERING

January 1, 1921.

To the Selectmen of Town of Scituate, Mass.

Gentlemen: During the period between December 11, 1919, to December 8, 1920, I made an examination of fifty-five slaughtered animals, viz: twenty-three hogs, twenty veals, eight beeves and four lambs, all of which I passed as fit for human consumption.

Respectfully submitted,

J. F. BRESNAHAN,
Inspector.

SEALER OF WEIGHTS AND MEASURES

January 6, 1921.

Board of Selectmen, Scituate, Mass.

Dear Sirs: My report for the year as Sealer of Weights and Measures follows:

Platforms under 5000 pounds	17
Counters	28
Spring beams	17
Computing	14
Prescription scales	5
Weights	191
Liquid measures	39
Oil pumps	20
Yard measures	4

In addition to this report as work that does not show, there have been sixteen scales and measures condemned and many tests made of gasoline and oil measures, some pumps being tested as many as five or six times. The hose on all pumps are the straight non-closing nozzle approved by the State.

Respectfully submitted,

RUSSELL T. KNOX.

Sealer for 1920.

Total amount of fees, \$33.05.

REPORT OF CHIEF OF POLICE

Scituate, Mass., December 31, 1920.

To the Honorable Board of Selectmen:

Gentlemen: I hereby submit the Annual Report of the Police Department, for the year 1920.

This department has been called upon to take care of the interests of the people of the Town of Scituate and others, far in excess of any year since the Police Department has been established. At the beginning of the year 1920, a series of breaks in the summer residential sections at Minot, Shore Acres and Humarock Beach, occurred. As soon as the police were notified, which was not until several houses had been entered and complaints from their owners made, the Chief, after consulting with the Selectmen, deemed it advisable and just, to give whatever protection could be given to safeguard the premises with a view of capturing and bringing to justice the persons who were engaged in this looting business. While the police were not successful in making any arrests, their presence had the effect of putting a stop to any further depredations. The expense attending this guard duty ran up to quite a high figure, and as soon as it was considered safe the men were called from this special duty. About the same time, or a little later, a number of burglaries took place at the stores in North Scituate. It was necessary to have some special assistance in this case, and while it added to the cost of the Police Department, we feel that the money was well expended, as the culprits were apprehended, tried, found guilty and served a short sentence in the House of Correction at Plymouth, after which they were released on probation, and ordered to make full restitution to the owners of the stolen goods.

The increase in automobile traffic over the previous year made it necessary to detail extra men to take care of this situation.

In the early part of October, one of our citizens was brutally assaulted by a man whom she had employed for some time, who after committing the crime stole her car and vanished from Town. The police immediately took steps to apprehend the culprit, and find the stolen car. A reward of \$300 was offered by the Chief for information that would lead to his apprehension. After several weeks the Chief received word from Philadelphia that this car was in storage at a garage in that city, and he with Sergeant Litchfield made a trip to Philadelphia, in order to get what information they could and bring the car back to Scituate. No trace of the party who left the car at the garage could be found, but the officers were informed that the photograph of the person whom they were looking for, which they had in their possession, answered in every particular to the man who left the car at the garage. The expense of this trip was paid out of the police funds. It was absolutely necessary that the police should get the car in their possession, as it established a very important factor in the evidence against the party who they are convinced committed the crime.

For the year 1921 I would recommend an appropriation of six thousand dollars (\$6000) for the Police Department.

Respectfully submitted,

JOHN F. TURNER,
Chief of Police.

REPORT OF FIRE DEPARTMENT

The Board of Selectmen:

Gentlemen: The Board of Engineers appointed by your honorable Board for the year ending April 30, 1921, met in accordance with your instructions and organized with the following officers:

Charles M. Litchfield, chief; Alfred B. Cole, first assistant chief; Joseph P. Murphy, second assistant chief; Harry M. Litchfield, district chief; Frank W. Litchfield, district chief and clerk of board.

This department has been called to twenty-one (21) alarms for buildings and fourteen (14) for forest fires during the year. Total value of buildings involved is \$211,075; insured for \$65,750. Damage caused by fires, \$3945, which is less than a two per cent loss.

We are still of the opinion that the Town should have some adequate equipment, namely a motor-driven pumping engine for the protection of our public buildings and congested areas.

Respectfully yours,

CHARLES M. LITCHFIELD, *Chief.*

ALFRED B. COLE, *First Assistant Chief.*

JOSEPH P. MURPHY, *Second Assistant Chief.*

HARRY M. LITCHFIELD,

FRANK W. LITCHFIELD, *Clerk of Board.*

REPORT OF WELCOME HOME COMMITTEE

To the Board of Selectmen, Scituate, Massachusetts.

Gentlemen: As Chairman of the Scituate Welcome Home Committee I have to report:

Immediately after the annual Town Meeting held last year, at which \$8000 was voted for the completion of Memorial Park, your Committee, through Olmsted Brothers, landscape architects, sent out specifications of the work to be done and requested bids thereon. Several bids were submitted and the contract was awarded to Morrison & Gillis. Your committee feels that the finished park is the best evidence as to the wisdom of the award.

In addition to the work done on the park, your committee purchased, and had placed on the large boulder a supplementary tablet containing several names which through error were left off the original tablet. Medals were also presented to all whose names were placed on the supplementary tablet.

As per his promise to the Town's voters, your chairman has personally contributed cash to the Welcome Home Fund to the amount of \$1,132.61, in order that all bills contracted might be paid. Furthermore, he has personally contributed, and which is not included in the Treasurer's report, additional trees to the value of \$645.89, labor in setting trees and for the care of the park during the summer months amounting to approximately \$1000, a fountain for the pool valued at a great many dollars, also flowers, etc.

Through the efforts of the Grand Army and the Board of Selectmen, two large trench mortars were secured from the Government and have been put in place near the point of the park which is formed by Central and Willow Streets.

Some other improvements to the park are contemplated,

viz: the removal of the line of telephone poles on the Willow Street side, the relocating of the flag pole and the planting of additional trees and shrubs.

The careful mowing and treatment of the grass on the park last summer contributed much to the beautiful lawn which resulted, and, while this work will not be so expensive during the coming season, it is very important that it should be kept up; and your chairman recommends that an article be inserted in the Town Warrant asking for an appropriation of \$500 for this purpose, the same to be expended under the direction of the Welcome Home Committee, and your chairman agrees to supply any deficiency if this sum is inadequate to properly take care of the work.

The Treasurer's report follows, which shows receipts and disbursements in detail.

Respectfully submitted,

THOMAS W. LAWSON, *Chairman.*

REPORT OF THE CLEAN-UP COMMITTEE

To the Citizens of Scituate:

Clean-Up Week was observed in Scituate May 17-22, 1920. The campaign was well advertised by flyers distributed by the pupils of the Jenkins and Hatherly Schools and by the clergymen in the various churches, the *Scituate Herald*, the screens at the moving picture theatres, and posters designed and drawn by grammar school pupils.

The committee is indebted to these pupils in the graded schools, who assisted in this clean-up work without remuneration of any kind and we take this opportunity of expressing our thanks to them and the teachers who directed the work.

It was found necessary this year to turn over a part of the Ridge Hill Pit used for a dump at Scituate Harbor, and this was done in preparation for Clean-Up Week.

The same method of collecting and disposing of rubbish was pursued as in previous years, teams being sent to the premises of persons notifying the committee.

The rubbish barrels were placed at convenient points and cared for during the season from May to October by the Boy Scout Troop at North Scituate and David O'Hern at Scituate Harbor.

One additional barrel was purchased, lettered and placed at the Sand Hills Post Office.

Following is the report of the treasurer:

Town appropriation	\$300 00
Balance from 1919	19 39
<hr/>	
Total receipts	\$319 39

Paid:

David W. O'Hern, removing rubbish and storing barrels	\$167 00
Mitchell Brothers, removing rubbish	33 00
North Scituate Boy Scouts, care of barrels	21 00
George F. Welch Co., new barrel	7 50
Boundbrook Press, flyers	5 50
Treasurer's expense	25
Total expense	\$234 25
Balance returned to Town Treasurer	\$85 14

Respectfully submitted,

SCITUATE CLEAN-UP COMMITTEE,

M. S. MITCHELL, *Chairman.*

REPORT OF THE SCITUATE HISTORICAL SOCIETY

During the year just closed the Cudworth House has been the scene of much activity. In the year to come the society plans to take an active part in the tercentenary Pilgrim anniversary celebrations. Scituate, three hundred years ago, stood next in colonial importance to Plymouth itself and for the fifty years preceding the amalgamation with Massachusetts Bay it was in the lead of all of the Old Colony towns. It has much in history that is worthy of remark and attention and the Society feels that in this tercentenary year an adequate Town appropriation should be made to celebrate them.

From among the members of the Society donations have been made which are sufficient to refurnish the north chamber and place appropriate furnishings in it.

Respectfully submitted,

SILAS PEIRCE, *President.*

Scituate, January 7, 1921.

REPORT OF THE STREET NOMENCLATURE COMMITTEE

Following the appropriation by the Town at the last annual meeting of the sum of two hundred and fifty dollars to be expended in new signboards of the design recently established, your committee placed orders with Mr. Jesse P. Litchfield covering the appropriation for new signboards for its amount.

At about the same time he entered into a contract with the Pilgrim Tercentenary Commission for the creation of one hundred signboards of the same design as those which have in the last five years been erected in our Town, to mark the Plymouth and Bay Road, the Massachusetts Path, the Country Way and the King's Highway, as these ancient highways extend through the counties of Suffolk, Norfolk, Plymouth and Barnstable from Boston to Provincetown. The work for Scituate is being done in connection with this contract and all will be ready for placing in the spring. In this connection it is worthy of comment that the Pilgrim Tercentenary Commission, before making the above contract, submitted the design of the signboards to the Art Commission. This body not only approved the design, but commended highly its beauty and appropriateness.

MARY A. FORD,
For the Committee.

Scituate, January 7, 1921.

Day and the day following.

REPORT OF SCHOOL COMMITTEE

To the People of Scituate:

The School Committee is gratified to report that this year, although quite uneventful, has been very successful under the smoothly running plans of our superintendent, Mr. Bragdon.

The ninth grade will have worked itself out of the system in June, and the grades have been brought up to such a standard that the pupils will be able to enter high school without it.

The Teachers' Institute which Mr. Bragdon introduced has proved both pleasant and profitable, by bringing together all the teachers of this district at all-day sessions, giving them opportunity to exchange ideas and hear some of the best educators.

A change was made this year in the supervisors of music and drawing. Mrs. Grace Hall was selected for drawing and Miss Jeanne Bradford for music. These departments seem to be doing well under their leadership.

The combination of school physician and district nurse working together has been an advantage to the health in the schools, as their report will show.

Mrs. Waldo Litchfield was elected attendance officer.

The School Committee meetings have been held the first Tuesday evening of each month at the office of the superintendent in the Old High School building.

It was a great disappointment to this committee that the Town voted against the article of last year's March meeting in regard to an appropriation for vocational training for girls. It may be that since sewing had to be dropped on that account, the feeling may change when time comes to vote this year.

The reason the girls seemed to be preferred was because the State made an offer to pay part of the amount for girls' training and lessened the amount to be raised by the Town.

The cost of equipment for girls would not be as great as the cost of tools and machinery required for boys and seemed a more modest request.

A plan might be made to send any boys desiring to a Trade School in Plymouth or Quincy, thus equalizing the advantage to boy or girl.

The Old High School building will be at liberty in June and is very well arranged for Domestic Science.

It is very disconcerting to the committee when showing a teacher candidate or visitors about the High School to have them ask, "Where is the athletic field?" The boys need more open space in which to play. Athletics are very important for boys of this age and they should have more encouragement.

The intimate operations of these institutions which stand closest to the community, which have so much to do with its vital and essential needs are not enough understood by the parents.

They see something of the results but with most of them it is hardly enough to make a fair judgment. We do hope that all adults who are interested and who will take the time to do so will drop in and see the schools in operation.

The Town is to be congratulated upon its generous consideration of the amounts asked for the support of schools, for it brings its educational department into a class with the best towns of its size.

We recommend appropriations as follows:

For the support of schools	\$35,550.00
For painting the Jenkins School	800.00
For renewing insurance	1,000.00
For state-aided vocational course	2,000.00
For salaries of School Committee	250.00
For transportation of pupils	9,800 to 11,000

State reimbursements will amount to approximately \$3200 without the vocational course, or \$4200 if the course is accepted.

Respectfully submitted,

PHILIP S. BAILEY,
MARION COLLIER ALEXANDER,
CLEVELAND COGSWELL,

School Committee.

REPORT OF SUPERINTENDENT OF SCHOOLS

To the School Committee of Scituate:

I present herewith the reports of our schools for the year 1920, as required by statute.

One year ago we presented to the citizens of the town a pretty thorough review and analysis of conditions, with specific recommendations and the reasons therefor. Of the recommendations made, that for increase in salaries was promptly accepted, and we have been able to retain nearly all of our teachers. The experience of other towns shows that we should have been seriously crippled in our teaching staff, had not this action been taken.

The second recommendation, namely, that for the acceptance of the vocational household arts course in the High School, was rejected by the voters. This I deeply regret, because it involves the continuation of conditions at the high school which are not satisfactory. The nature of this course, and the arguments for it are set forth on page 11 of the printed report of last year, and need not be restated. I ask that this proposition be again presented to the voters with the reasons for the same, at the annual town meeting.

To meet the similar needs of the boys requires a much more expensive plant and equipment and the state department is not prepared to assist in financing it. Provision is made, however, whereby boys may attend one of the trade schools at expense of the Town and the State will bear one-half the expense. The nearest school of this sort is at Quincy. This arrangement gives good service at low cost.

The elimination of the ninth grade is completed this year. Continuation of the so-called "Junior Department of the High School" is no longer needed. Those pupils of

Grade VIII who are adjudged prepared will be allowed to enter high school next September.

The work in the grades shows no marked change from the ordinary results of a year. The teachers have worked with their usual devotion, and have responded to the increases in salary with voluntary effort for professional improvement through individual and collective study of methods and results. I doubt if any marked improvement in efficiency will be secured without very decided changes in organization and program of studies. I shall merely state some facts and opinions at this time, and leave the explanation and defense of them for another occasion. The mere statement should call forth serious thought from the thoughtful.

Fifty-seven pupils in the Hatherly School and fifty in the Jenkins School have repeated one or more grades. A really efficient organization would not allow this to have happened. Thirty-one pupils at Jenkins and fifty-three at Hatherly are from one to three years behind normal grade progress. Sixty-six at Jenkins and twenty-six at Hatherly are ahead of normal grade progress for their respective ages. (See table of age-grade progress.)

The tendency of our school organization is to cater to the so-called "normal" pupils. The retarded pupils and the accelerated pupils receive very little of the instruction they should have, because there are too many pupils per teacher to permit classifying the pupils by ability instead of by artificial grade standards. Better instruction requires more teachers; more teachers require more rooms.

A physical director, for all or a part time, is needed to arrange for systematic physical training. (See report of the School Physician.)

Facilities for lunch service in a sanitary and mannerly way should be provided. The unused rooms at Jenkins can be easily adapted to this purpose. The solution of the problem at the Hatherly School is more expensive.

It is interesting to note that a man of long experience coming to the principalship of our school without prejudice,

soon makes the same criticism as his predecessor. I quote from the report of last year, page 7: "The most serious criticism of our high school is that of low standards of scholarship. The ideals of the students are altogether too low."

I commend to the careful and sympathetic thought of those interested in making our high school truly efficient, the report of Mr. Martin, and the following propositions:

1. Our high school courses do not suit the needs of this community. Eighty to ninety per cent of the present enrollment is not properly served by the courses offered.

2. The commercial department should be strengthened, more exacting entrance requirements demanded, and fitness for office positions made a requisite for a diploma.

3. A stronger program of social and civic training should be required of all.

4. Transportation of pupils to the high school increases numbers at the expense of quality, tends to lower standards of scholarship and discipline, and frequently prevents desirable changes in a day's program because of the fixed schedule of motor barges.

As industrial and economic conditions return to normal or stable form, let us strive to secure for our schools those outward conditions which will contribute much toward the social and intellectual efficiency for which we all are so earnestly striving. The gratifying thought is that so many people are sympathetic and helpful in their attitude toward us in our efforts. To them and to you I desire to express my appreciation of the many evidences of loyal support given throughout the year.

Respectfully submitted,

F. E. BRAGDON,
Superintendent.

HIGH SCHOOL PRINCIPAL'S REPORT

January 7, 1921.

MR. F. E. BRAGDON,
Superintendent of Schools.

Dear Sir:

The writer has been connected with the Scituate High School seventy-eight days of actual school session. Obviously any specific conclusions or recommendations based upon observations covering so short a period might be inaccurate. However, the general problems of secondary (high school) education in our country are much the same regardless of the location or name of the particular Town under consideration, although local conditions may be important factors in the solution of the problems.

Recently a national committee, composed of twenty-six prominent educators, made a report on "Cardinal Principles of Secondary Education." This report would be read with compelling interest by any citizen who wishes to place himself in contact with present-day constructive thinking along the line of secondary education. It can be secured by remitting five cents in coin or money order to the Superintendent of Documents, Government Printing Offices, Washington, D. C., requesting Bureau of Education Bulletin 1918, No. 35.

This report makes the following statements: "The purpose of democracy is so to organize society that each member may develop his personality primarily through activities designed for the well-being of his fellow members and of society as a whole. . . . For the achievement of these ends democracy must place chief reliance upon education. Consequently education in a democracy, both within and without the school, should develop in each individual the knowledge, interests, ideals, habits and powers whereby

he will find his place and use that place to shape both himself and society toward ever nobler ends."

In following up this line of thought the report points out that the family is the first social group to which the individual is related, then comes the vocational group, and the various civic groups in town, state and nation.

To execute most successfully one's duties in these groups the individual must have good health, skill in the use of the fundamental processes — such as reading, writing, arithmetical computations, oral and written expression — and conduct founded upon right principles.

The main objectives of education, then, are: health, worthy home membership, successful vocation, high ideals of citizenship, command of fundamental processes, constructive use of leisure time, and ethical character.

To discuss these objectives is entirely beyond the space allotted to this local report. It is the opinion of the writer that the Scituate High School, like many rural high schools, in many respects is failing to proceed toward these objectives. Accurate data is not available, but it is probable that not more than two or three out of every hundred pupils who enter this school ever go to college, and yet the course of study is dominated largely, both in content and method, by college requirements. The result is that fully sixty per cent of the students are pursuing studies which do not have real points of contact with their daily life. This means lack of interest and formation of careless habits of study. About fifteen per cent of the present membership could be rated as really faithful students of the school subjects. In all justice the fault must not be laid wholly upon the student. The period of readjustment through which the world is passing has its influence upon education just as much as upon any other activity. The group consciousness of this particular school certainly needs redirection to accomplish the objectives mentioned above as the aims of secondary education. As individuals any educator would find these young people responsive, capable, and courteous, almost without exception. The group consciousness, however, is either perverted

or largely negative. That there may be a radical change in this respect is the immediate need and toward this end we shall continue to direct our efforts in the school. All education, however, does not proceed from the public school. In this connection a phrase used earlier in this report is well worth repetition: "Consequently education in a democracy, both within and *without* the school, should develop in each individual the knowledge, interests, ideals, habits and powers whereby he will find his place and use that place to shape both himself and society toward ever nobler ends."

This report is written with the most loyal intentions and deepest appreciation toward pupils, townspeople and school authorities.

Respectfully submitted,

L. A. MARTIN,
Principal.

REPORT OF SUPERVISOR OF DRAWING

MR. F. E. BRAGDON,
Superintendent of Schools.

Dear Sir: My report covers so short a period, that the most I can say of the work in drawing is that it promises well. A brief outline of what I wish to do may interest you. There is very little formal instruction in the primary grades, the pupils being encouraged to express themselves freely, under supervision. At the end of the eighth or ninth year of school I think a child should be able to make pencil sketches of simple objects, showing correct proportions and general characteristics, to sketch natural growths, expressing grace and beauty, to measure accurately, to make and use correctly a good free-hand alphabet, but more than all to have begun to appreciate what is beautiful in nature and art. The acquirement of proficiency in drawing demands the same application as any other study.

It seems unfortunate to me that so little time can be devoted to drawing that the only form of manual training that can be introduced must be confined to paper and textiles.

In the high school drawing is elective. The mechanical drawing is ably taught by Mr. Locke. In the free-hand classes I hope to encourage close observation and a free expression of individuality with a good technique.

The pupils of today become the purchasing and voting public of tomorrow. Its demands decide in a large measure, our imports, our manufactures, our domestic architecture and our civic planning. "A nation's highest permanent expression is through its arts."

Respectfully submitted,

GRACE L. HALL.

REPORT OF SCHOOL PHYSICIAN

To the Scituate School Committee:

With the aid of the District Nurse I have examined all of the pupils of our schools. I gave a thorough examination to each pupil in the first eight grades with particular attention to the first three grades. This examination included the nose and throat glands, chest, feet, height, weight and general appearance.

We found a *very* good physical group of children in the first grade, but this was specially good in the Hatherly School; notwithstanding this fact many of this number need attention for throat trouble, principally tonsils and adenoids.

As examinations are continued in the second and third grades, we find some pupils beginning to follow a line of divergence from the normal, in many cases slight, in others quite marked and increasing as the child progresses through the fourth and fifth grades, more serious postural defects are observed, round shoulders and spinal curvatures of various degree and variety. In the fourth and fifth and in the seventh and eighth grades are cases that even exercises would not correct, and are in fact proper material for the orthopedic surgeon.

It is our wish to do everything we can to improve the physical condition of the school children of Scituate. This can be done and it can be done in very large measure if every one interested will work for this common object.

We are keeping a card-index of each pupil. In this way a record of each child is preserved and their gain in physical development or the progressive advance of defects recorded. The District Nurse visits the family to notify them in each case that may need surgical, medical or dental care and in other instances when she can be of service.

What can we do to promote the health of the school children of Scituate? By means of directed school exercises postural defects could in many cases be prevented, in others cured or greatly helped. By the use of suitable exercises at an early date in the school attendance many later defects would be prevented. The schools need a salaried instructor in Physical Education. I strongly recommend that the faculty of our schools be increased by a member who shall devote his or her entire time to the physical education of the pupils. Under the supervision of a competent director, corrective exercises for those who more particularly need them can be instituted.

Athletics should be encouraged and a suitable field should be provided for the High School.

The school buildings have been examined and found to be in good sanitary condition and very well kept.

There have been no epidemics of contagious disease.

In the Hatherly School the first three grades, forty-seven children examined revealed the following errors:

15 Diseased tonsils.

7 Adenoids.

4 Enlarged glands.

4 Prominent shoulder blades.

4 Round shouldered.

2 Flat foot, first degree.

3 Flat foot, second degree.

1 Spinal curvature.

1 Heart disease.

Five of this number have had corrective treatment.

I wish to thank those connected with the schools for help received.

Respectfully submitted,

T. B. ALEXANDER, M. D.,

School Physician.

WILLIAM P. RICHARDSON, *Treasurer.*

AUDITOR'S REPORT

Scituate, Mass., January 14, 1922.

I have examined the accounts of the Selectmen, Overseers of the Poor, Tax Collector, and Treasurer of the Town of Scituate for the year ending December 31, 1921.

Payments authorized by the Selectmen were made by the Treasurer to the extent of \$438,637.25.

All accounts were found to be correct, supported by proper vouchers, and are in accordance with detailed printed reports of the above mentioned officers.

Respectfully submitted,

WILLIAM M. WADE,
Auditor.

ARTICLE 5

Voted, That the Town do authorize its Overseers of the Poor to contract at their discretion for the support of the Town's poor.

ARTICLE 6

Voted, That the Town do authorize the Town Treasurer, with the approval of the Selectmen, to borrow during the financial year beginning January 1, 1922, in anticipation of the collection of revenue of said year, such sums of money as may be necessary for the current expenses of the Town, but not exceeding the limit fixed by law, giving the note or notes of the Town therefor payable within one year from the dates thereof, and to renew such note or notes as may be given for a less period than one year, provided the limit of one year is not exceeded thereby. All debts incurred under this authority shall be paid from the revenue of the then current year.

ARTICLE 7

Report of the Committee appointed March 1, 1920, by John D. Ferguson, Chairman; a list of salaries of Elective Town Officers was submitted to the voters; taken up with Article 57.

Will the Town establish the salaries and compensation of all elected Town Officers as instructed in Section 8, Chapter 591, General Acts of 1920?

Voted, That the Selectmen receive a salary of \$225 per year and expenses.

Assessors \$375 per year and expenses.

Overseers of the Poor \$150 per year and expenses.

Clerical work of the three Boards \$1500.

Voted, That the Overseers attend to the cases of Mothers' Aid without compensation.

That the Town Clerk receive \$500 per year and expenses.

That the Town Treasurer receive \$1200 per year and expenses.

That the Collector of Taxes receive \$1800 per year and expenses.

That the Auditor receive \$150 per year and expenses.

All legitimate and legal expenses:

Constables from Police appropriation, \$100 each.

Board of Health, \$25 each

School Committee, \$100 each.

Tree Warden, \$350.

The Highway Surveyor to receive \$2,000 per year.

No expense for auto or team be allowed for his personal use.

To pay the Moderator \$10 for each meeting from General Government.

ARTICLE 8

Voted, That the Town authorize the Selectmen to prosecute, compromise or defend any suit or suits within the Commonwealth in the name of the Town.

ARTICLE 9

Voted, That its taxes be collected the same as last year. All taxes shall be payable by November 1 of the year when assessed, and that all taxes unpaid after said November 1 shall draw interest at six per cent from the fifteenth day of October until paid.

ARTICLE 10

Voted, That the Town do instruct its Selectmen to control, regulate or prohibit the taking of eels, clams, quohaugs, razor fish and scallops within the Town of Scituate in accordance with Chapter 91, Section 85, Revised Laws, as amended by Acts of 1913, Chapter 517 and further amended by Acts of 1915, Chapter 86.

ARTICLE 11

Voted, That the Town do raise and appropriate the sum of \$1,000 to build a sidewalk on the northerly side of Bailey's Causeway from the new Post Office building to Buttonwood Lane.

ARTICLE 12

Voted, That the Town raise and appropriate the sum of \$2,500 to be used as a reserve fund.

ARTICLE 13

Voted, That the Town raise and appropriate the sum of \$200 for the collection and disposal of rubbish throughout the Town, to be expended under the direction of the Clean-Up Committee.

ARTICLE 14

In regard to the purchase of a Pumping Engine. Voted, No.

ARTICLE 15

Voted, That the Town raise and appropriate \$1,500 for Street work at Humarock Beach.

ARTICLE 16

Voted, \$200 for the use of the Plymouth County Farm Bureau Trustees for County Aid to Agriculture.

ARTICLE 17

Voted, That the Town authorize the Selectmen to contract for the part time service of a Public Health Nurse,

to be employed under the direction of the Board of Health, Overseers of the Poor and School Committee, and raise and appropriate \$1,000 for that purpose.

ARTICLE 18

Voted, To raise and appropriate the sum of \$17,198.56 to pay the Town's share of the Plymouth County Tuberculosis Hospital in accordance with the provisions of Chapter 286, Acts of 1916, and it was

Voted, That the Town do raise and appropriate the sum of \$17,198.56 for its share of the Plymouth County Tuberculosis Hospital in accordance with the provisions of Chapter 286 of the General Acts of the year 1916, and the Town Treasurer is authorized with the approval of the Selectmen to borrow the above amount on Serial Notes to extend over a period of eight years, one Note for \$3,198.56 payable one year from date of issue, the balance in equal annual payments of \$2,000 each.

ARTICLE 19

Voted, Not to change the name of Tilden Road.

ARTICLE 20

Voted, \$500 for permanently marking as a part of the Tercentenary Anniversary of the landing of the Pilgrims historic spots connected with the early settlement of the Town of Scituate and place the same in the hands of the Scituate Historical Society.

ARTICLE 21

Voted, \$2,000 for street and sidewalk improvements on Meeting House Lane.

ARTICLE 22

Voted, To place four electric lights on Cedar Street.

ARTICLE 23

Voted, Not to purchase a three and one-half ton truck for use in the Street Department.

ARTICLE 24

Voted, \$1,000 to purchase a scarifier for street use.

ARTICLE 25

Voted, To indefinitely postpone, to build a section of Mann Hill Road by using an asphalt mix.

ARTICLE 26

Voted, \$950 to purchase building of Charles H. Waterman located on the Town Pier.

ARTICLE 27

Voted, \$250 to continue the retaining wall at Light House Road from its northerly end to the residence of John Stonefield.

ARTICLE 28

Voted, To pay a bounty of twenty-five cents each on foxes and woodchucks killed within the limits of the Town.

ARTICLE 29

Voted, No, making Central Street from the railroad station to the watering fountain a concrete road.

ARTICLE 30

Voted, \$2,000 to repair the road from the railroad crossing at Scituate Depot to Peggoty Beach.

ARTICLE 31

Voted, \$500 to be expended on Scituate Avenue from Ocean Drive to Hatherly Road.

ARTICLE 32

Voted, \$750 to repair the Street leading from the watering fountain near the Harbor to the First Cliff.

ARTICLE 33

Voted, No, one additional police officer at Humarock Saturday afternoons and Sundays.

ARTICLE 34

Voted, \$800 to build a sidewalk on the northerly side of Gannett Street, starting at the walk of the Bound Brook Garage and running to the sidewalk recently constructed by the Town on Mordecai Lincoln Road.

ARTICLE 35

Voted, To place one electric light on Willow Street near the lane leading to the residence of Walter Ellis.

ARTICLE 36

Voted, That the electric light on pole No. 37, Hatherly Road, be changed from a six months to a yearly light.

ARTICLE 37

Voted, \$500 for repairs on Briggs Place.

ARTICLE 38

Voted, \$1000 for repairs on Elm Street.

ARTICLE 39

Voted, To indefinitely postpone the raising of \$5,000 to resurface Turner Avenue, etc.

ARTICLE 40

To raise \$200 for Fourth of July celebration at the Sand Hills. Voted, No.

ARTICLE 41

Voted, \$1,000 for repairs on Jericho Road and Turner Avenue from the Scituate Yacht Club to Hatherly Road and Tilden Road.

ARTICLE 42

Voted, To accept the layout of the Selectmen, making Marshall Avenue from that portion already laid out by the County Commissioners to Priscilla Avenue, Priscilla Avenue to Egypt Avenue, Egypt Avenue to Egypt Beach Road at Shore Acres, Town ways and raise \$2,500 for constructing the same.

ARTICLE 43

Voted, To accept the layout of the Selectmen making Moreland Road to Lincoln Avenue, Lincoln Avenue to Collier Road, Collier Road from Lincoln Avenue to that portion of Collier Road already accepted by the Town, and Michael Avenue from Moreland Road to Collier Road at Rivermoor as Town ways and raise and appropriate \$1,000 to use in the construction of the same.

ARTICLE 44

Voted, That the Town accept the layout of the Selectmen making Otis Road at the Sand Hills from Turner Avenue to Jericho Road a Town way, and raise and appropriate \$500 to use in the construction of the same.

ARTICLE 45

Will the Town accept a building now located on the corner of Glades Road and Bailey's Causeway as a comfort station, etc.? Voted, To indefinitely postpone.

ARTICLE 46

Voted, \$3,000 to repair and properly drain a section of Tilden Road formerly known as Bay Street, beginning at the junction of Willow Street and going south as far as the said sum will go.

ARTICLE 47

Voted, To make the two summer lights on Scituate Avenue, one near the Catholic Church and one at the junction of Scituate Avenue, Barker Road and Damon Road, all-year-round lights included in amount raised for street lighting.

ARTICLE 48

Will the Town vote to build an addition to the Town Hall? Voted, To indefinitely postpone.

ARTICLE 49

Voted, \$500 for the upkeep of the Park, bounded by Branch, Central and Willow Streets, to be expended under the direction of the Scituate Welcome Home Committee.

ARTICLE 50

Voted, That the Town of Scituate name the Park bounded by Central, Branch and Willow Streets Lawson Park. A motion presented by the Rev. Lewis Edward Perry and accepted by the Town by unanimous vote.

In view of the great kindness of our distinguished citizen Thomas W. Lawson, in so many ways and especially in the giving to the people of our Town the use of his beautiful grounds at the time of the Scituate Welcome Home Celebration for our boys at the close of the World War I move that we extend to Mr. Lawson our sincere thanks, and that this vote be a rising vote and that we clap our hands as we rise so as to give added expression of our appreciation.

ARTICLE 51

Will the Town vote to raise \$5,000 to purchase an asphalt hot mixing plant?

Voted, To indefinitely postpone.

ARTICLE 52

Voted, That the Town turn over to the citizens of that part of the Town known as the West End, the building formerly known as the High Street School, so that the inhabitants of that community may have the use of the same for purposes of general and civic welfare under the care and custody of Mrs. Annie M. S. Litchfield.

ARTICLE 53

Voted, \$1,000 for repairing Common Street.

ARTICLE 54

Voted, To indefinitely postpone.

ARTICLE 55

Voted, That the Town accept the layout of the Selectmen making a private way leading from Glades Road at Minot, to the water, between the houses of Fred L. Fisher on the northerly side and the houses of Delia Murphy and Laura H. Smith on the southerly side a Town way.

ARTICLE 56

Voted, That the Town accept the layout of the Selectmen making a private way leading from the Glades Road at Minot to the water, between the property of Elva B. Woodford on the northerly side and the property of Catherine Splaine on the southerly side, a Town way, and raise and appropriate \$100 for this purpose.

ARTICLE 57

Taken up with Article 7.

Voted, That the Town authorize the School Committee to establish and maintain State-aided vocational education

in accordance with the provisions of Chapter 471, Acts of 1911 and Acts amendatory thereto or dependent thereon. Two thousand raised in estimated expenses under Education. Adjourned to March 14, 1921.

REPORT OF THE PARK COMMISSION

To the Citizens of Scituate:

The plots of various sections of the Town under our supervision have had good attention; in some cases it was necessary to grade and resod; all are now in good condition.

The money appropriated for the partial renovation of the Cedar Point Light House has been judiciously expended but a further appropriation is necessary for the interior of the Light House Dwelling. We think it advisable to do this, as it will then finish the repairs to the Light House Buildings. The Common, upon which stands the Soldiers' and Sailors' Monument, is now a very attractive spot, but on account of its size and area needs to have special attention.

The Park Commission recommend at this time that the plots be named after those boys who made the supreme sacrifice in the World War if the same is approved by the American Legion.

The plot along Glades Road, North Scituate, has been completed and is one of the most attractive spots along the shore front.

FRANK H. BARRY,
JOHN F. DALBY,
WILLIAM H. NORTH,
Park Commissioners.

REPORT OF THE TREE WARDEN

To the Selectmen and Town Citizens:

I have this year planted two hundred and seven trees. Some are to replace ones damaged or dead. There are very few streets in our Town that have no shade trees. I have mowed around all trees and given them all a fair amount of fertilizer. They are all growing and will in time make fine trees.

The mowing of bushes is the greatest problem. Mowing must be done every year to keep down briars and wild cherry that seem to do extra well in our Town.

We have a great many miles of back roads that are being traveled by automobiles; the roads are very narrow with blind corners and if we do not look after them, accidents will be numerous.

I wish to state that the North Scituate Improvement Association has taken a great interest in the shade trees in that part of the Town, having all of the shade trees dug around and bone meal applied to each tree.

There is an article I would like to mention with regard to dumping brushes and slash on our roadsides. I wish this could be stopped. It has caused many fires in the dry season. Persons in passing cars will drop matches or perhaps cigars and a number of our small trees have been ruined in this manner.

Respectfully submitted,

WILLIAM F. FORD,
Tree Warden.

REPORT OF THE BOARD OF HEALTH

To the Citizens of Scituate we present our report for 1921.

The following cases of diseases were reported:

Whooping cough, one hundred cases; chicken pox, twenty cases; measles, nine cases; diphtheria, six cases; typhoid fever, four cases; pulmonary tuberculosis, four cases.

We have attended to all complaints as usual and have inspected all the dairies and cow barns in Town and those out of town from which milk is brought into this Town.

We again recommend that more care be taken with tin cans and rubbish.

Respectfully submitted,

WILLIAM P. GROVESTEN,
GEORGE T. OTIS,
JOHN W. BURKE, *Secretary,*
Board of Health.

REPORT OF INSPECTOR OF PLUMBING

Board of Health, Scituate, Mass.

Gentlemen:

During the past year there has been an increase in plumbing installations in the town. All local plumbers and those from other towns and cities who have performed work here have lived up to all the requirements of our plumbing ordinances. This year the prospects are that a greater increase in new work will be installed and I believe it is the desire of all engaged in the plumbing trade to co-operate with me as they have in the past to give to the people the best sanitary conditions possible.

Yours respectfully,

ARTHUR R. MERRITT,
Inspector of Plumbing.

REPORT OF INSPECTOR OF MILK

To the Citizens of Scituate:

There were thirteen milk licenses issued for the year 1921.

I have tested samples of milk and found an improvement over preceding years.

Examination of the dairies proves that the dairymen are doing all they can to produce clean milk.

Respectfully submitted,

GEORGE T. OTIS,
Milk Inspector.

REPORT OF INSPECTOR OF SLAUGHTERING

North Scituate, Mass., January 1, 1922.

The Scituate Board of Selectmen.

Gentlemen: During 1921, I examined all slaughtered domestic animals brought to my attention and found all to be fit for human consumption.

I would suggest that publicity be given the State Board of Health requirements, that all animals whether for sale or own consumption shall be inspected by the local inspector of slaughtered animals before being used or sold.

Respectfully submitted,

J. F. BRESNAHAN,
Inspector.

SCITUATE PUBLIC HEALTH NURSING SERVICE

The Scituate Public Health Nursing Service was organized December 13, 1919, and during the two years of its existence has been constantly reaching out to greater usefulness in the town.

Miss Alice M. Gaffney, our Public Health Nurse, began her work in March, 1920, three months after the organization was formed, and has been the inspiration of the service and the friend and advisor of the sick, the aged, and the children in our public schools, endearing herself to all.

The rules governing the employment of the nurse are as follows:

RULES FOR PUBLIC HEALTH NURSES

1. Public Health Nurse shall be on duty from 8 a.m. to 5 p.m. She shall have an afternoon free each week, except when Sundays and holidays follow one another directly.

2. All calls received at the office later than 4 p.m. must wait over until the next day except in case of emergency.

Only urgent calls will be answered on Sundays and legal holidays. Word must be given before five o'clock on previous day when possible.

3. The fee for a nurse each day-visit is fifty cents and night, \$1.00. Patients able to pay for services are expected to do so. The fee will be collected by the nurse in full, or part payment, at her discretion. A receipt for money received should be given. The fee for an operation and maternity cases, \$2.00.

4. Nurse shall not attend contagious cases.

5. The nurse shall, on no account, be allowed to give a diagnosis, to prescribe drugs or advise concerning the use of medicine.

6. Nurse shall receive no personal gifts from patients. The nurse is expected to receive her orders from the physician on whom the responsibility of the case devolves. She will answer all calls but is not allowed to continue with a case unless the physician is in charge.

7. The nurse shall give a detailed report of her work every two weeks to the Chairman of the Nursing Committee, who shall give a summary at each monthly meeting of the Board of Directors.

8. In case of dismissal the nurse shall receive a month's notice or a month's pay in lieu of notice; and in case of resignation, she shall give a month's notice or forfeit a month's pay.

9. The nurse shall be entitled to one month's vacation during the year; and as the salary is continued during the time, it is required that she shall not exercise her profession, but shall employ the whole time for rest and recuperation.

10. The nurse, when absent on account of sickness, shall be given her full pay for a period not exceeding half a month. After the expiration of the half month, further payment shall be at the discretion of the Board of Directors.

The various organizations in town have been very liberal in their contributions to the service, the following societies having made generous donations: Scituate Public School Association, Scituate Woman's Club, North Scituate Welfare League, Girls' Scouts, Steadfast Lodge, U. O. of O. L., Post 31, G. A. R., Woman's Relief Corps, Carpenter's Union, Scituate Catholic Church, Congregational Sewing Circle, Ladies' Aid Methodist Church, Unitarian Alliance, Laymen's League, Baptist Sewing Circle, Scituate American Legion, World Wide Guild, Village Brotherhood.

At the Annual Town Meeting in March, 1921, the Town appropriated \$1000 toward the salary of the nurse, and this has been a good investment in securing part time of the nurse in the schools and among the unfortunate.

In reviewing the activities of the year 1921 we find that great emphasis has been placed on health work for the children in our schools — the Town's greatest interest and asset. It was at the instigation of the service that the Dental Clinic was established in Scituate schools at the beginning of the school year and through the service that the funds were available to purchase the dental equipment which is owned by the Town.

Tooth brushes were bought and placed in the hands of the teachers to sell the pupils at cost.

Health literature published by the State Board of Health has been distributed throughout the schools, and Coco, the Health clown, was secured to give exhibitions at the Jenkins and Hatherly Schools.

MARTHA S. MITCHELL, *Secretary*.

Following are the reports of Treasurer and Public Health Nurse:

ANNUAL REPORT OF TREASURER OF SCITUATE
PUBLIC HEALTH NURSING SERVICE

December 8, 1921

Cash on hand December 10, 1920 \$1,266 88

SEALER OF WEIGHTS AND MEASURES

January 3, 1922.

To the Selectmen, Town of Scituate, Mass.

Gentlemen: My report for the year as Sealer of Weights and Measures:

	<i>Sealed</i>	<i>Adjusted</i>
Platforms over 5,000 pounds.....	1	
Platforms under 5,000 pounds.....	15	1
Counter scales.....	31	5
Spring scales.....	37	1
Computing scales.....	18	3
Prescription scales.....	5	2
Weights.....	206	22
Liquid measures.....	36	
Oil measuring pump.....	36	14
Yard measures.....	8	

In addition to this report I have made inspections of scales and pumps.

Total amount of fees..... \$48 48

Respectfully submitted,

ELWOOD C. DAMON,
Sealer for 1921.

REPORT OF CHIEF OF POLICE

Scituate, Mass., December 31, 1921.

*To the Honorable Board of Selectmen
of the Town of Scituate.*

Gentlemen:

I hereby submit the Annual Report of the Police Department for the year 1921.

The work of the department has not differed much from that of previous years, other than there has not been quite as much trouble in regard to the looting the houses of our summer residents, and no serious breaks have occurred.

On account of the increased auto travel, during the past season it became necessary to have extra officers detailed to cover certain points on our most travelled streets, during Saturday afternoons, Sundays and holidays, in order to protect the public, and I am pleased to be able to state that no accidents, save a few minor ones, occurred during the entire season in our Town; one serious accident happened at the Scituate Railroad Station, but that was not owing to any lack of police protection.

The safeguarding of the public, who use our streets, can only be accomplished by having an adequate number of officers to properly patrol the most dangerous points along our streets, during the season when auto traffic is at its height, and it necessitates quite a large expenditure of money to give this protection.

I therefore recommend for the coming year an appropriation of \$6,000.

Respectfully submitted,

JOHN F. TURNER,
Chief of Police.

REPORT OF FIRE DEPARTMENT

To the Board of Selectmen:

The Board of Engineers appointed by your honorable board for the year ending April 30, 1922, met in accordance with your instructions and organized with the following officers:

Charles M. Litchfield, chief; Alfred B. Cole, first assistant chief; Joseph P. Murphy, second assistant chief; Harry M. Litchfield, district chief; Frank W. Litchfield, district chief and clerk of the Board of Engineers.

This department has been called to fifty-three (53) alarms during the year.

At the time the Fire Department was organized in 1903 the valuation was \$3,369,645 and it increased to \$7,577,920 in 1921; this valuation has been steadily growing even during the war period.

The department is in very good condition and is now fully motorized. During the year the Department of Public Safety has called upon the department several times for co-operation, and in the opinion of the Board of Engineers (if the present suggestion of the Fire Marshal is enacted before the incoming Legislature) it will be a case of constant supervision on the part of the Fire Department to comply with these Prevention Rules.

We wish to call the attention of all householders to the fact that the majority of fires during the extremely cold weather are mainly caused by overheated heating apparatus and in view of the fact that in every case that has been called to our attention, we find no one carrying an adequate amount of insurance, we feel sure that you will co-operate with us in preventing this condition. All places of business are urged and warned to keep their premises in and about their buildings free from refuse of all kinds. The inhabitants

are warned to keep within the law relative to outdoor fires.

We are calling the above facts to your attention owing to our feeling that we have not yet the proper equipment to adequately cope with any fire occurring in any of our congested areas or in our public buildings, as all we have to depend on is whatever pressure there may be in the water mains at the time the fires occur, and that has been proven to be not what we require.

A very good solution to the problem would be the addition of a pumping engine to our equipment, as we have before advocated.

CHARLES M. LITCHFIELD, *Chief*,
ALFRED B. COLE, *First Assistant Chief*,
JOSEPH P. MURPHY, *Second Assistant Chief*,
HARRY M. LITCHFIELD, *District Chief*,
FRANK W. LITCHFIELD, *Clerk of Board*.

REPORT OF THE CLEAN-UP COMMITTEE

To the Citizens of Scituate:

At the first meeting of the Clean-Up Committee plans were made for a special week in which the rubbish accumulated during the winter should be disposed of in the usual manner. Large posters naming the dates and the men to whom the Town's people could apply were posted in different parts of the Town. Also the local paper, moving picture screens and the clergymen of various churches helped in the advertising.

As our appropriation was much less than in former years, we endeavored to have the work done for a specified price, that we might not exceed the appropriation.

One new can was purchased, lettered and placed at Greenbush.

An application from Minot for another can necessitated our removing one from North Scituate to take care of rubbish strewn about in that vicinity. Otherwise the cans were placed as usual and cared for during the summer months by the Boy Scouts at North Scituate and Scituate Harbor. Three or four people kindly offered to attend to cans in their vicinity.

As far as the present committee can learn the work of Boy Scouts has been very satisfactory and with the co-operation of the Town's people it appears that the amount appropriated this year is sufficient.

Following is the report of the Treasurer:

Received from Town Treasurer \$200 00

Paid out as follows:

Carrie M. Ford, printing	\$1 75
Welch Co., galvanized ash can	7 00
Mitchell Brothers, collecting rubbish . .	45 90

David O'Hern, collecting rubbish	\$80 00	
W. W. Locke, Scout Master	28 00	
Allan D. Creelman, Scout Master	28 00	
C. G. Everett, lettering barrels and postage	1 62	
	<hr/>	
	\$192 27	
Balance on hand October 26, 1921	7 73	
	<hr/>	
Balance returned to Town Treasurer		\$200 00

(Signed) CHARLES D. EVERETT.

Respectfully submitted,

SCITUATE CLEAN-UP COMMITTEE,

E. G. WATERMAN, *Chairman*.

REPORT OF SCITUATE HISTORICAL SOCIETY

January 9, 1921.

To the Inhabitants of the Town of Scituate:

The Scituate Historical Society, Custodian of the Cudworth House, is pleased to report that during the past year the historical dwelling has received many appreciative visitors. With the restoration of the bedroom on the second floor the house is now wholly returned to its original condition and the generosity of the Town's people and members of the society is annually adding to the interesting articles of furniture and historic value with which it is furnished. It was open daily and in the care of an attendant during the summer months and the success of the adoption of this plan leads the trustees to its continuance.

SCITUATE HISTORICAL SOCIETY,

HARVEY H. PRATT, *President.*

REPORT OF COMMITTEE ON STREET NOMENCLATURE

To the Inhabitants of the Town of Scituate:

The undersigned respectfully recommends that for the purpose of completing the erection of the attractive sign boards along our highways an appropriation of two hundred and fifty dollars be made this year. To those who have travelled upon the ancient Plymouth and Bay Road, the Massachusetts Path, the Country Way and the King's Highway in Norfolk, Plymouth and Barnstable counties, the guideboards, similar in design to those that have been erected in our own Town, give evidence of the appreciation felt by others of our effort in marking our highways with becoming boards. A small amount of which the above sum is a part will entirely complete the work. When it is accomplished the signboards themselves should be protected against vandalism.

THE COMMITTEE ON STREET NOMENCLATURE,

MARY A. FORD, *Chairman*.

REPORT OF WELCOME HOME COMMITTEE

To the Board of Selectmen, Scituate, Massachusetts.

Gentlemen:

As Chairman of the Scituate Welcome Home Committee I have to report as follows:

The \$500 appropriated at the Annual Town Meeting last March for the care of Lawson Park during the 1921 season was expended for this purpose. The grass was carefully mowed during the entire season as often as necessary, which most of the time was twice each week. Flowers were planted around the boulder and the trees were properly watered and treated; some that had died were replaced and a line of telephone poles on the park side of Willow Street were moved by the Telephone Company at the urgent demands of your Committee.

The park presented a splendid appearance last summer and was viewed by many visitors on their way to the Plymouth celebration. The lawn is in excellent condition, but it is vitally important that the park continue to receive proper care as a few weeks neglect could easily spoil a great deal of the good that has been accomplished.

I most earnestly recommend an appropriation of \$500 for the care of the park during the coming season. This amount is necessary to insure proper care. If the voters desire it your chairman will gladly undertake to see that the right kind of care is given the park this year and he will agree to supply any deficiency if the \$500 asked for is not adequate for the purpose, or if the voters prefer to have the work done under the supervision of the Selectmen, he will co-operate with them in every way possible. His sole desire in the matter is to see that the park is properly taken care of, and if the voters feel that it is now time for the Welcome

Home Committee to pass out of existence and the Board of Selectmen to take its place, your chairman is more than willing that such should be the case.

Respectfully submitted,

THOMAS W. LAWSON, *Chairman.*

1922.

The winter term opens January 2, 1923.

HOLIDAYS

January 1, February 22, April 19, May 31, October 12,
Thanksgiving Day and the day following.

REPORT OF THE SCHOOL COMMITTEE

To the Citizens of the Town of Scituate:

We have reached another milestone on the path to education, and we may safely say we are going in the right direction under the wise guidance of our Superintendent, Mr. Bragdon. Reports from the various departments of school work all show improvement under his carefully laid plans.

The Committee is very pleased to bring the Vocational School to your attention, as this is the first year it has been tried and the result is very satisfactory. In spite of criticism and discouragements at the beginning it is proving itself more than a fad — a really useful department, giving training to girls for one of the most important businesses of life.

The Commercial Department of the High School is called to your attention also, as the system was changed this year — with better response from the students.

Response from the Dental Clinic, which is new this year, is very gratifying.

The Jenkins School has been painted and a few necessary repairs given, which put the building in fine condition, and electric lights have been installed in both the Jenkins and the Hatherly buildings.

There is one department of our schools, and it is an important one, which your Committee feels should have a word of commendation. It is in reference to the manner in which the buildings are kept by the janitors. Such service is appreciated and is most praiseworthy.

The High School building has been equipped with all-metal weather strips on all the doors and windows, and repairs have been made on the roof.

The list of visitors at the schools is not as long as we wish it were. Most children are delighted when their friends or parents appear in their rooms. Won't you please try to step in oftener? Your interest and pleasure will increase as well the inspiration of the teacher when he feels your co-operation.

If parents and school officers could succeed in making pupils realize that school is a serious affair upon which their futures depend, more could be accomplished and less time would be wasted in foolishness.

In America educated men have always been the leaders, in wars as well as in peace. But educated intelligent citizens were never needed more than they are now. At the present time when national affairs are so complicated, men, and women, too, need to understand the activities thoroughly to use good sense in voting. No one can do this unless he has sufficient education to strengthen his mind and broaden his viewpoint. If students will but stop to think they can easily see that they are working for their country as well as for themselves.

The Scituate Woman's Club offers a scholarship to the girl of the senior class who has an average of eighty per cent in three of four subjects for the year.

The Chief Justice Cushing Chapter of the D. A. R. presented the High School library with one history of the Town written by its members, entitled "Old Scituate."

The High School received a bust of Wagner from Mrs. George F. Welch.

A careful study of school finances has been made and a summary of the year's expenditures and next year's estimates are given below.

We recommend appropriations for 1922 as follows:

For support of schools (including, Vocational School and Dental Clinic)	\$39,650.00
For salary of School Committee	300.00
For transportation	11,000.00
Total	<u>\$50,950.00</u>

Reimbursements for teachers' salaries and one-half the maintenance cost of the Household Arts School are estimated at \$4,800 which sum will be available for the reduction of the tax levy.

Respectfully submitted,

MARION COLLIER ALEXANDER,
Secretary.

REPORT OF SUPERINTENDENT OF SCHOOLS

To the School Committee of Scituate:

The record of the public schools of Scituate for 1921 is made. With a considerable degree of satisfaction we write the story. Three forward steps are the outstanding achievements of the year. At the annual town meeting the enabling act for the beginning of a school of Household Arts was passed, as follows:

Voted, That the Town authorize the School Committee to establish and maintain State-Aided Vocational Education in accordance with the provisions of Chapter 417, Acts of 1911, and Acts amendatory thereto or dependent thereon. In accordance with this vote plans were laid for the opening in September of a State-Aided school officially known as the Scituate Vocational Household Arts Department, with the following organization: F. E. Bragdon, Director; Miss Olive Barrows, Principal; William W. Locke, Instructor in Household Science; Mrs. Doris Ward, Instructor in Household Art. The Advisory Board: Mrs. Rena Cole, Chairman; Mrs. Mary Stearns, Secretary; Mrs. Ellsworth Curtis, Mrs. Paul Eaton, Mrs. Harold Poland.

Quarters for the school have been provided in the Old High School building, the main room of which has been converted into an apartment house by partitions. A large kitchen is equipped with a full-sized range with hot water, two oil ranges, a sink, ten individual drop-front cooking cabinets, and two work tables. The sewing room is furnished with chairs and tables for ten to fifteen pupils, two sewing machines, and a storage bureau and closets. A smaller apartment, not yet furnished, will eventually contain the equipment of a sleeping room, and be used for instruction in

care of the room, first aid and home nursing. A dining room is being furnished in one of the small rooms adjoining the kitchen. When completed it will be a model room for a tasty cottage home in a brown color scheme and antique design. The planning and work of furnishing this dining room and the sleeping and reception rooms form a part of the instruction and practice given to the pupils.

The school opened with a registration of twenty-five pupils, of whom seven are seniors. The law requires that no one under fourteen years of age shall be enrolled in this school. Therefore several of the freshman class were ineligible this year. This enrollment is relatively high and gratifying in that it confirms the arguments advanced for opening the school. The work is progressing with splendid spirit, and we confidently expect it will rapidly acquire a very high efficiency. Later in the year there will be demonstrations and exhibitions of the skill and handiwork of the pupils.

The terms of organization of the school under which it is recognized for State aid to the extent of one-half of all expense for maintenance are that the pupils shall give one-half of the school day to the study of household arts and related subjects and the other half to such academic studies as may be offered by the High School. Such a combination course should prove attractive to every young woman, and do much toward removing the popular criticism that the instruction given in the public schools is not practical.

The second forward step is the establishment of the Dental Clinic. This was hastened to an appearance this year by the interest and assistance of the Nursing Service and the Red Cross, by whom the sum of five hundred dollars was contributed for dental equipment. It was decided to have the dentist work at the Jenkins School the first half of the year and at the Hatherly School the second half. A charge of twenty-five cents per sitting is made to cover the cost of material used. The salary of the dentist is paid from school funds appropriated for health work. Dr. F. A. Derby, of Allerton, is the dentist. He is at the school on

Mondays and Wednesdays when the schools are in session. The popularity of this clinic may be inferred from the report of work done submitted by Dr. Derby. Our school physician, nurse, and many citizens speak loudly in praise of this phase of our work.

The third advance of the year is in the enlargement and reorganization of the commercial department of the High School. For some time past we have felt that the commercial department should cease to be a reservoir for the reception of pupils who are not fitted and therefore unable to pursue the work with success. We have contended that it was a poor investment to hold pupils for two, three or four years under instruction which at best produced only a few candidates for a real business course elsewhere. We also believed it would be wise to change the systems of bookkeeping and shorthand heretofore used to those systems which are acknowledged to be more satisfactory and successful. The resignation of Miss Pierce, for so many years a tireless worker and splendid influence in the school, furnished the desired opportunity. The scope of the curriculum was considerably enlarged, the conditions under which a pupil may enter the business course were made more stringent, the conditions of graduation were made to include ability to perform the class of clerical work studied in an acceptable manner by actual performance in real business for a stated period. Training in office practice, penmanship, business law, English and geography, and in economics is to be provided to the end that the graduate may have not merely a smattering of shorthand and bookkeeping, but, more particularly, a broad outlook upon business life, and a fair equivalent in mental training of the college preparatory courses. The task of instruction was given to Miss Nettie E. Elliott and Miss Grace H. Callanan. The transition from the Pitmanic to the Gregg system of shorthand was made easy by the unexpected failure of any of last year's pupils to register for shorthand. Thus the most difficult adjustment of the change was taken care of.

The enrollment for the year is not large. It may not be

large for several years to come while the pupils are waking up to the consciousness that the commercial course at the Scituate High School means hard work and the successful completion of it practically insures a good position in business. We can well afford to work for quality of product. A few strong-minded, well-trained, enthusiastic graduates will be enough justification for the expense involved. There is no occasion with the present organization and instructors for our young people to go to the city for the completion of an ordinary business course. We are prepared to meet any reasonable demand for post-graduate instruction, and I have no doubt but that as the demand arises still more equipment of machines and of office furnishings will be provided.

These are the three outstanding achievements for the year, so far as organization is concerned. Of the achievements in the previously established courses, it would be difficult to speak exhaustively. Frequently the teachers respond to the inquiry, "How are things going with you?" by saying, "Never better." Observation and parental approval support such assertion. Denying any claim of faultlessness, admitting that mistakes are made, it is still quite true that our teachers are getting very fine results. Scholarship is increasing; a spirit of loyalty, initiative, courtesy and good-will is being created; public sentiment is gathering behind the teachers to enforce habits of obedience and industry; criticisms have lost most of their bitterness and have become constructive and helpful. Continuance of these conditions must inevitably produce schools and graduates which will be ever increasingly an honor and delight to Scituate folk.

Mention should be made of the comparative stability of our teaching force — a blessing not enjoyed by many towns. We are fortunate in retaining the services of so many, and scarcely less fortunate in getting such able new teachers as we have. We felt most keenly the temporary loss of Miss Marie Ward, who did so wonderfully well with the first grade last year, and who was forced by ill health to take leave of absence for this year. Miss Weeden as

substitute for the year is meeting the situation admirably and joins with us and Miss Ward's many friends in the hope that she will be able to resume her post in the fall.

The changes in the teaching staff are noted elsewhere in this report. These employees of the town are all worthy folks of high purpose and devotion to our interests. They are worthy of more appreciation and sympathetic encouragement from parents and citizens than is expressed to them. Our children reproduce in the schoolroom the attitude of the home toward the teacher. Can we not personally and through our children convey to our teachers the fact of our hearty and appreciative approval of their services? It will re-act to our good.

A Year Book of the High School is in preparation, in which will be stated the courses offered, the terms of admission, and the conditions of promotion and graduation. It is hoped that the book may also contain a correct list of all the alumni and a historical sketch of the school.

The reports of the Principal of the High School, the Supervisors, the School Physician and the Nurse, the Dentist and the Attendance Officer are transmitted herewith. The usual statistical tables will appear as an appendix to this report.

RECOMMENDATIONS

1. Let us stand by the goods and strengthen the defenses of the several undertakings of this year. Let us strive for a still better spirit of good-will between pupils and teachers, that is to say, between home and school. Let us present again and again the fact that school is a business, that attending school is real life and not a pastime. Let us continue to stand squarely as heretofore behind the teachers in demanding obedience to authority and the prompt performance of every task assigned.

2. Let us hope that some one will intercede effectively in behalf of our boys and help secure for them the benefits of an athletic field at the High School.

3. Let us continue to hope that the grading about the High School building will be completed and conditions of

orderliness and beauty exist without to enforce the instruction given within the building.

The continued support and co-operation of my fellow citizens, the helpful constructive criticism and suggestions offered in increasing numbers, the co-operation of the Public School Association and the Nursing Service in promoting educational policies, the loyal and conscientious devotion of the teachers to their responsible tasks, the confidence and support of your own body individually and collectively are gratefully acknowledged. With these our work is pleasure; without them it would be fruitless.

Respectfully submitted,

FREDERICK E. BRAGDON,
Superintendent.

HIGH SCHOOL PRINCIPAL'S REPORT

January 7, 1921.

MR. F. E. BRAGDON,
Superintendent of Schools.

Dear Sir:

In this, my second formal report to your office and to the citizens of Scituate, I wish to call attention again to the facts which I presented after somewhat brief observations last year. To avoid unnecessary repetition and printing, I will simply refer the reader to page ten of the Annual Report, 1920.

As a group of teachers we are proceeding under the assumption that the people of this town wish to support a high school which shall be in every respect worthy of that name. It is a self-evident fact that the development which we call education comes from a conscientious effort on the part of the individual who enrolls himself as a member of any institution of learning. Conscientious effort means not only a careful and painstaking application to the task of the various subjects studied, but a genuine and spontaneous co-operation toward the best kind of citizenship in the institution, the town, the state, the nation and the world.

We are convinced that there is evidence of some improvement in the scholarship of the school as a whole. We intend to advance the standard gradually but steadily, and issue promotions and diplomas only to those who really deserve such promotion. Satisfactory high school work can not possibly be done by the average student without some home study. Of course the amount of home work will depend upon the individual and the subjects which are studied. In general every high school pupil who is doing his work well will find it necessary to study at least one hour daily outside

of school hours. In a conference this week with one of the pupils who is failing in one of his studies, I gained the information that on an average he spent from fifteen to twenty-five minutes in preparation of a lesson. Obviously no pupil should be surprised to fail on such effort. Of course the parent is the only person who is in a position to know whether the pupil is doing his home work or not. Reports are sent out at the close of each two-month period. We would be pleased to confer with parents if the student has an unsatisfactory record. Such conferences may be of inestimable value to the pupil and the school.

Respectfully submitted,

L. A. MARTIN,
Principal.

REPORT OF THE SUPERVISOR OF DRAWING

MR. F. E. BRAGDON,
Superintendent of Schools,
Scituate, Mass.

Dear Sir:

With the real work in drawing still ahead, I submit this report of the work to date.

In the grades the work covers paper-cutting, coloring, assembling and the regular pencil representation, giving each grade its vocabulary of picture-words and teaching the old points of drawing in simple ways through objects near to child life.

The work, dividing itself into three parts, Representation and Construction, in which the children learn to do and make, and Appreciation, where they learn to choose, should not end with the drawing lessons but carry on through all school work and into the home.

The construction work already taken will be followed up in the spring, as such work seems invaluable for pattern-thinking, hand-control, accuracy and neatness and satisfies the desire for "something to build."

Through the enthusiasm of the children and the splendid backing of the teachers the work has a good start and we hope in June to set forth the year's work to show what we have tried to accomplish.

In the High School, time is unfortunately short to allow the best results, in one instance two entirely different classes meeting the same short period. New plans may come this term and the classes in Free Hand Drawing, Color and Commercial Lettering be allowed full and separate periods.

The special work of the senior Household Arts girls

has gone slowly but the room and furniture should be completed this term.

I have certainly had the support of Committee, Superintendent, principals and teachers and I do appreciate it.

Respectfully submitted,

DORIS D. WARD,
Supervisor of Drawing.

REPORT OF THE SUPERVISOR OF MUSIC

MR. F. E. BRAGDON,
Superintendent of Schools.

Dear Sir:

In the practical working out of the problem of music instruction in the public schools, there are four phases that may receive attention: first, the teaching of the fundamental principles of music theory and their application to the reading of music; second, voice training; third, the interpretation of music; fourth, the cultural features of music training.

Under the limitations of time commonly allotted to music instruction, it is impossible to secure the highest possible standard of results in all of these important phases — and it becomes the task of the supervisor to decide which are most vital and essential to that appreciation of music which comes from knowing and doing.

The aim of music instruction in the schools of Scituate is to give the pupils a love and taste for music; thorough drill in the fundamentals so the printed page may register definitely and surely; knowledge of the simple principles of breath control and production of smooth pleasant tone; song interpretation and musical appreciation through an abundance of beautiful and artistic song material.

It is most gratifying to note the progress already made toward this ideal, and I wish to acknowledge my indebtedness to the splendid co-operation of the entire teaching force and the wonderful responsiveness of the pupils, that have made such results possible.

New developments are under way or being planned which it is hoped will demonstrate still further the real purpose of music education in the schools. Vocal and instrumental instruction will be available to pupils in small groups

in every school; also orchestral practice. High school credit should be given for outside music study.

The High School established its claim to a place in line with other progressive schools by its contribution to the Tercentenary program — the cantata “The Pilgrims of 1620” by Hosmer, its notable graduation program, and its first operatic production the following week, “The Fire Prince” by Hadley, which fixed a standard for similar work by other high schools. This last line of work is being further developed this year by the musical comedy under preparation by the senior class, and the operetta by the entire school to be presented in April, which it is hoped will give even more convincing proof of the great value of this form of educational recreation as a means of self-expression.

The work of all the schools has shown much hitherto unknown talent that deserves every possible opportunity for its development to thus strengthen the connection between what is being done along lines of musical education and the real purpose such education ought to serve in the community.

There is a growing appreciation of the great educational value of music, but the functioning of school music in the community life is the most important factor to emphasize, for it has to do with the motive in the work.

Respectfully submitted,

JEANNE BRADFORD,
Supervisor of Music.

REPORT OF THE SCHOOL PHYSICIAN

To the Scituate School Committee:

It is a well established fact that many school children are seriously underweight. The cause of this may be some physical handicap (teeth, tonsils, adenoids, etc.) or insufficient or improper food. It is reasonable to suppose that children suffering from malnutrition have lessened resistance to infections, and that when tuberculous infection of the lymph glands is associated with malnutrition the child may develop tuberculosis.

From a study of underweight school children it is established that fully one-third of those suffering from malnutrition have an inflammatory process of the bronchial glands, and that most of these cases are due to tuberculosis invasion. If efforts are concentrated on restoring to normal nutrition the underweight children we are using a most effective weapon against tuberculosis.

In order to get results with the greatest number of children, systematic nutrition work must be carried out in our schools. This is best secured by weighing and measuring the children. The ones suffering from malnutrition will be underweight. These children are to be given close physical examination.

It is necessary for parents of the children in question to co-operate in having physical defects corrected and to follow instruction in health habits and dietetics.

We are in the process of forming health classes for those children who are underweight or near the border line of this condition.

We have in previous reports spoken of the value of a mid-morning lunch of milk and hot lunches for those unable to go home as a factor in bettering the condition of the children.

The dental clinic is doing excellent work and results are very apparent in the improved appearance and health of many of the children.

The pupils of all of the schools have been examined and records of each individual kept for information as to their progress. Reports of those needing correction are sent to the parents and in most cases follow-up visits are made by the school nurse. A record is kept of all cases with regard to co-operation on the part of parents — whether suggested treatment is accepted, deferred or rejected.

It is to be regretted that there is not a suitable athletic field at the High School, as the association of athletics with school life must tend to develop personal health and efficiency and promote school pride and loyalty.

There have been no epidemics of contagious disease, vaccination against small pox has been enforced, and personal hygiene encouraged.

The school nurse has done faithful service, frequent visits of school inspection and instruction have been made, and follow-up work including visits to the homes for conference with parents.

More effective co-operation from the parents is being recorded, but much improvement is possible in this particular.

I thank those with whom I have been associated for their co-operation.

Respectfully submitted,

T. B. ALEXANDER, M.D.,
School Physician.

REPORT OF THE SCHOOL NURSE

MR. F. E. BRAGDON,
Superintendent of Schools,
Scituate, Mass.

Dear Sir:

At your request I am giving a brief report and outline of the duties of the school nurse. The duties are:

1. To assist the school physician in the physical examination of each child.

2. To keep records of these examinations.

3. (a) Follow-up work — that is to make visits to the parents of school children who have defects to be corrected and explain the meaning of the notification cards sent by the school physician.

(b) To give any help possible to have the defects corrected.

4. To assist the school dentist at the dental clinic.

5. (a) Schoolroom inspection for skin eruptions, deformities, cleanliness, etc.

(b) To try and improve the general health.

During the year 1921, I made one hundred sixty-two visits to the schools (this includes visits to clinic), one hundred nine visits to the homes, and eighty schoolroom inspections. I do part-time school work.

To make the work of health in the schools a success we need co-operation. We have this co-operation in Scituate, and it was shown when the subject of a dental clinic was brought up. The greatest defect in the school children last year was diseased teeth. The school board was quick to see and act, and the result is that hundreds of school children will have their teeth cared for in the public schools of Scituate.

Have we finished with our health work? Not by any means. We have just begun. It is slow work but sure, and money spent in improving the health and mind is the best investment any town can make, because it gives in return strong, healthy, alert boys and girls who will make the future citizens of the United States.

I wish to thank the people of Scituate for their co-operation during the past year.

ALICE M. GAFFNEY,
Registered Nurse.

REPORT OF SCHOOL DENTIST

January 2, 1922.

Board of Education, Scituate, Mass.

Gentlemen:

It gives me pleasure to submit to you the following as a summary of work completed by me up to and including December 31, 1921.

Examined all children at the Jenkins School, and found 93.5 per cent in need of dental attention.

The children were given cards to be signed by their parents, stating that they would either have their work done by the school dentist or by their own family dentist. Seventy-one per cent of the children are having their work done by the school dentist. Operations completed:

Silver fillings.....	354
Treatments.....	19
Cleansings.....	69
Cement fillings.....	12
Enamel fillings.....	38
Extractions.....	112
Root canal fillings.....	2

Grade	Number of Pupils in Grade	Pupils to have work done by school dentist	Pupils to have work done by family dentist	Pupils Completed by me	Incomplete
1	19	15	4	12	3
2	27	23	4	23	0
3	21	16	5	13	3
4	20	11	9	6	5
5	18	9	9	3	6
6	17	13	4	10	3
7	17	11	6	5	6
8	27	20	7	5	15
	166	118	48	77	41

The above figures show that 71 per cent of the children are having their work done by the school dentist.

Number of High School pupils worked for	16
Number completed	5
Number completed from the Hatherly School	3

Respectfully submitted,

FRANK A. DERBY, D.M.D.

REPORT OF THE ATTENDANCE OFFICER

To the School Committee of Scituate:

I accepted the office of attendance officer of our schools in November, 1920. Up to January, 1922, about thirteen months, I have had twenty-nine cases of absences and two cases of truancy. Many of the absences could have been avoided if the parents had stopped to think how hard it is for the child to keep up with the class when kept out one or two days a week. In two cases I found a total of twenty-six days of absence in one term. A child laboring under this difficulty finally loses all interest, and that is why I find a number of boys and girls at the age of fourteen ready to leave school.

Respectfully submitted,

ANNIE M. S. LITCHFIELD,
Attendance Officer.
